**Peter W. Bragdon Appointed
26th Headmaster of
Governor Dummer Academy**

Following an intensive nationwide search beginning one year ago when Jack Ragle told the Board of Trustees of his intentions to retire as Headmaster in June 1983, the Trustees at their mid-winter 1983 meeting unanimously voted to appoint Peter W. Bragdon, 47, of Kent School, Kent, Connecticut as the new Headmaster.

For those alumni, parents and friends of Governor Dummer Academy who have not yet heard, beginning next year Mr. Ragle has accepted a faculty position as an instructor in English and writing at Kimball Union Academy in Meriden, New Hampshire. KUA is fourteen miles south of Hanover, New Hampshire where Jack has many friends from his years at Dartmouth.

A more detailed story of Peter Bragdon will appear in the fall *Archon*, but in response to alumni and parents' interest we want to briefly profile the new headmaster and highlight his years in independent education.

In conversation, Peter immediately evinces his genuine love for life — for his family (his wife, Dorothy, and their three children, Bill, 21, Chris 19, and Katherine, 14), for young people, for

education, for recreation. He likes to talk about the "open house" program he and Mrs. Bragdon hold at their home on Sunday afternoons for Kent students (frisbee, croquet, TV, barbecue), about fishing in the Adirondacks, about teaching history, about the achievements of Bill, Chris and Katherine, about Dorothy's work with special needs children.

Peter is surely known for his skills as a hockey player and coach, yet his reputation as a history teacher and administrator are widely known amongst his colleagues and his students. Words such as "integrity", "fairness", "sportsmanship", are used by his associates when describing his standards.

In the *Kent News*, Peter describes the Headmastership of Governor Dummer Academy as "a new challenge which will employ all the experience and resources Mrs. Bragdon and I have gained in twenty-three years of boarding school education."

Peter, the son of a teacher and author, grew up at Brooks School, North Andover, Massachusetts and Phillips Exeter Academy from which he graduated in 1954. He received both his Bachelor of Arts (1959) and Master of Arts in Teaching (1960) from Harvard. Following four months of travel through England, France, Italy and Greece, Peter began his teaching career

in Australia for the Melbourne Church of England Grammar School as an instructor in History and English, a coach in field hockey and rowing, and assistant housemaster. A year later, he moved to St. Paul's School, Concord, New Hampshire as a history teacher, coach (ice hockey, baseball and lacrosse) and dormmaster.

In 1966, Peter began work at the Kent School as Chairman of the History Department, a position he held for four years. He inaugurated an Asian Studies program, created a team teaching approach to American History, and increased use of paperbacks, films and audio-visual aids. He also developed an Advance Placement program in American History. In the summer of 1966 he was selected for the National Defense Education Act Institute in non-western history at the University of New Hampshire and in 1967 created and taught a course in American Black Leadership at Northfield-Mount Hermon Liberal Studies Program.

Mr. Bragdon was appointed Kent Director of Admissions Boys' Campus in 1970. In that position he has traveled extensively to create a greater diversity within the student body (both in terms of quality and geographic distribution) and has been successful in nearly doubling the number of formal candidates. In addition, he has served on numerous faculty and student committees. He coached varsity hockey for fourteen years during which time the team won five league championships, and, for four years coached intramural rowing. During the summers Mr. Bragdon has coached hockey in Canada and northern New York state, and has spent time fishing and hiking in the Adirondacks.

He was married to the former Dorothy Davison of Duxbury, Massachusetts in June 1959. Mrs. Bragdon has been very much a part of the Kent School community, hostessing numerous functions for the students, as well as coaching intramural crews. She has served as chairperson of the town of Kent's Park and Recreation Committee and has been a special education teacher at the Kent Center School.

The Bragdons are anxious to begin their work at Governor Dummer Academy on July 1. Up to that time, they are visiting the campus on weekends (as time permits) to get to know it and its people better.

The Governor Dummer Scene

At the Syracuse reception are Ginger and Hugh Dietz '60 and Gerry and Cynthia Dietz '35.

In New York are Ben Beach '67, Josh Burns '68 and host Harrison Poole '39.

New York Receptions Reach Enthusiastic Alumni and Parents

Receptions for alumni, parents and friends of GDA were held in Syracuse and New York City in February and March. The former was hosted by Mr. & Mrs. Gerry Dietz '35 who had over thirty alumni and parents at their lovely home for an enjoyable evening of socializing and sharing of Governor Dummer experiences.

Mr. & Mrs. F. Harrison Poole '39, once again kindly opened their beautiful home overlooking the United Nations to a strong and enthusiastic group of New York City area alumni and parents. Coordinated by Richard O'Leary '75, Alumni Trustee and New York area Alumni Association director, the reception was attended by over eighty people who were welcomed by Headmaster Ragle and special guest Buster Navins '37.

Headmaster Ragle Chairs International Committee

Headmaster Jack Ragle recently returned from two weeks in the Netherlands at the American School in Amsterdam, one week of which was devoted to chairing a Visiting Committee representing the European Council of Independent Schools and the New England Association of Schools and Colleges, to which the school is applying for dual accreditation. In addition to Mr. Ragle, the Committee was comprised of three men and four women representing international schools in Genoa, Florence, Zurich, Moscow, Denmark, Norway and the Canary Islands.

The Committee worked hard for a week to put a rough draft of the evaluation together, which Mr. Ragle will complete in its final form. The American School in Amsterdam is a school of 350 students grades K-12, of which 73% are non-American representing 33 different nations.

Before the group commenced its work, Mr. Ragle had a week to enjoy the sights and culture of Amsterdam. From his hotel overlooking the Leidsegracht (Leidse Canal), he explored the city on foot and toured the canals by boat. He took in a modern ballet at the Straatishouwberg (Opera House), the Van Gogh museum, and Rijksmuseum (Rembrandt's and others), and attended a Mozart Concert. To sum it up, said Mr. Ragle, "It was a fascinating experience for me!"

Students Available for Summer Employment

Again Governor Dummer seeks the assistance of alumni, parents and friends in setting up a summer job program. In the past, GDA students have worked as camp counselors, waiters and waitresses, mothers' helpers, doctors' assistants, doing yard work and house painting. At school the students have learned a variety of skills to apply

towards a summer job ranging from language fluency to teaching swimming. Any position, whether it be manual or mental labor would be appreciated.

If you are interested in offering a summer job to a GDA student, please contact Bob Colgate, Dean of Students. Your offer will be posted on the school bulletin board, and those students who feel qualified will apply directly to you.

If you have any questions about the program, please do not hesitate to contact Mr. Colgate.

Grandparents Day

The first grandparents day will be held on Wednesday, May 4, beginning at 8:30 AM. All grandparents are cordially invited to attend classes and lunch with their grandchild and to enjoy the afternoon athletic games. Please RSVP to the Alumni Office.

National Merit Scholarship Achievements

Four finalists in the National Merit Scholarship program from GDA were recently announced by Headmaster Ragle. The finalists, Arthur Cohen and Aaron Halpern of Newburyport, Rebecca Riehl of Andover, and John Sylvain of Hampton, New Hampshire were congratulated and presented with certificates of merit. About 90% of the 15,000 semifinalists named in the fall of 1982 become finalists, and only these finalists were considered for a Merit Scholarship, to be announced later in the spring.

Admissions Picture Optimistic

The 1982-83 year in admissions has been another healthy one for the Academy. Although applications are down somewhat compared to last year's record breaking number, the quality of candidates accepted on March 10th "is the best in my eight years on the job," commented Director of Admissions, Mike Moonves.

"The primary reason for fewer applications may be the economy, as most of our sister schools are having the same experience," said Moonves. "I feel very strongly that Governor Dummer continues to hold a solid position and will welcome a truly outstanding group of young people in September."

Colleges Accept GDA Early Decision Candidates

Director of College Guidance, Bob Clagett, reports that over ten percent of the senior class have been admitted by early decision to their first-choice college. These include Babson, Cornell, Dartmouth, Dickinson, Harvard, Northeastern, Norwich, Skidmore, Tufts and Yale. At this writing, many other seniors have also been admitted to their first choice college through the rolling admission process while the remaining seniors will learn in mid-April of their success in the regular applicant pool.

Ahl Collection to be Exhibited

GDA is pleased to announce that a collection of paintings by the Ahl family is now on exhibit at the Academy through mid-June, on loan to the Academy by Professor A. Everette

Pictured with Bob Clagett, College Advisor, are National Merit finalists Aaron Halpern, John Sylvain, Arthur Cohen and Rebecca Riehl, all seniors.

James, Vanderbilt University. Dr. James is a collector of American Impressionism, including the Ahls: Henry H. Ahl (1869-1953), Eleanor Curtis Ahl (1875-1953), and Henry Curtis Ahl (1905-). Henry Curtis Ahl is a 1923 graduate of Governor Dummer.

GDA Allies Sponsor First Annual Golf and Tennis Classic

On Monday, May 23, 1983, the First Annual Golf and Tennis Classic to benefit Governor Dummer Academy will be played at Indian Ridge Country Club and the Old Colony Tennis Club, both in Andover, Massachusetts. The Allies, the organization of parents dedicated to helping the Academy, is sponsoring the tournament in order to help support many "unfunded" needs.

Along with an enjoyable afternoon of golf or tennis, as a special bonus each entered golfer will have a chance to win a set of golf irons, and each tennis player will have a chance to win a tennis weekend for two at Killington Tennis School (donated by Killington).

To help raise additional money, a raffle is being held, offering enticing prizes: first prize is \$1,000 cash, second prize a JVC video recorder, and third prize a \$100 restaurant gift certificate.

Following the afternoon of play, a social hour and a full course roast beef dinner and prize banquet will begin at the Country Club.

Please call Mrs. Barbara Liss, President, Allies (617/475-0556) or the GDA Alumni Office for further information.

Annual Fund Surges

All indicators are again pointing to a highly successful 1982/83 Annual Fund, which recently passed \$200,000 on the way towards a goal of \$250,000.

The Alumni are aiming for 45% participation and \$150,000. The Alumni Fund currently stands at \$132,000 and 33% participation. Both figures are encouraging and certainly a reflection of many loyal GDA supporters, in particular National Alumni Fund Chairman Tim Greene '50, who along with many dedicated class agents has given a great deal of time for GDA.

Senior Parents Fund Looks Promising

The Senior Parents Fund has received \$35,600, representing 64% of the Senior Class Parents. These are encouraging figures as we continue to work towards our goal of \$50,000 which will be given as a special gift to help towards funding for the new Edgar Kaiser Arts Center. As an added incentive, every dollar received is being matched by the Christian A. Johnson Endeavor Foundation, New York with their monies directed towards scholarship. Much is owed to Fred and Sandy Adams P'83, '84, for their leadership to this drive.

Parents Fund Impressive

The Parents Fund totals continue to climb toward a goal of \$58,000, with a total of \$51,700 received to date from 67% of the parents in the Classes of '84, '85 and '86. Chairman Dan Daley P'84, '85 comments, "I continue to be impressed with the increases in parent support and look forward to setting new records again this year."

Alumni Profile — Paul, Peter and Dan Morgan

Peter '43, Dan '67 & Paul '41 Morgan with portrait of Phillip Morgan.

As our society grows increasingly more independent and mobile, the structure of the American family continues to change with it. The Morgan family, however, is different. In fact, the Morgan family is a part of many families, including Governor Dummer, Harvard, Morgan Construction Company and Worcester, to name a few. In a profile of Paul '41, Peter '43 and Dan Morgan '67, it is evident that collectively and individually they are not willing to move with the societal trends, and instead devote their time as loyal members of their various families.

The Morgans are most renowned for their able leadership of the Morgan Construction Company and support of the Worcester community. Often called Worcester's "mystery" company, Morgan Construction Company is not what its name implies. As an international engineering company (not a construction company), Morgan has been located in Worcester for over 90 years, and employs approximately 750 people and grosses \$70 million in an average year. In essence, Morgan produces machinery that steel companies need to make steel.

In an industry where many small companies have been forced to merge with larger corporations because of the complex economic problems of the steel industry, Morgan remains a family-owned, family-run, non-unionized business. Founded in 1888 by Charles Hill Morgan, today the fourth generation of the family is running the business, with the fifth generation holding middle-level executive positions. They, like their ancestors, have become involved in the company from the shop-floor up.

The management history of the Morgans is complex, but goes something like this: Charles Hill Morgan was succeeded as President by

his son Paul B. Morgan, who in turn was succeeded by his son Philip. The President, Paul, and the Vice-President of Administration, Peter, are sons of Philip, and great-grandsons of the founder. Next come Paul's sons Dan and Philip, who are Assistants to the President. Although Dan had not necessarily planned on entering the family business, he reflects, "I feel fortunate that through my work at Morgan, I have been able to get involved with areas in business that many people my age have not been exposed to. I have been able to see my father successfully fulfil numerous positions beyond his role as a father, and finally, it has been rewarding to establish my loyalties here."

While Paul primarily concentrates on managing the business (yet among outside responsibilities he is Chairman of Worcester Polytechnic Institute's Board of Trustees), Peter is committed to involving himself and the company in the Worcester community. In fact, his devoted leadership recently brought him the award of "Worcester Businessperson of 1983". Although he claims he prefers to keep a low profile, he has certainly earned the respect of those he works with, and the list of projects and causes that have benefited from his work is lengthy. In 1977 he organized and led the fundraising effort to raise \$2 million in private funds toward the Centrum — Worcester's new Civic Center; from 1979-82, he was the Chairman of the YMCA of Greater Worcester and was a key figure in a decision to renovate their facility; he is leading the Y's fundraising drive which is expected to reach \$5 million by the middle of this year. Along with active participation on many boards, he serves as the Associate Chairman of the United Way and next year will be Chairman of the Central Massachusetts United Way fund drive.

The Morgans relationship with GDA began in 1938 with the arrival of Paul and Peter. While their father Philip became a Trustee of the Academy in 1942, the boys developed a record of their own active involvement in the GDA community. Paul reflects, "In those days, the College Guidance Office appointed us to one campus job or another, and at the time we wondered why. Although our positions often came as a total shock then, now 40 years later we know why we were required to fulfil them." Peter quickly adds, "As a matter of fact, one of my first jobs was managing the school store, and for five years I rang the school bell on Sunday mornings. It was a very important responsibility! Governor Dummer was a broadening experience, especially as it was really our first time away from home."

Paul continued to remain active in GDA alumni affairs as a member of the Alumni Executive Committee for many years. President of the Alumni Association in 1952-53, he observes that "Ted Eames took care of the school well, and the Trustees did a super job raising money to improve the physical plant. The Alumni Association was and still is a great way to get the younger alumni involved. One of our jobs was to write the Academy's fundraising appeal letters. Everyone was asked to give \$17.63!"

Dan has since followed his father's path, as a class agent and member of the Alumni Association Executive Committee (for which he will become Vice-President in June). At GDA, Dan wore many hats: as a member of the football, wrestling and tennis teams, Editor of the Governor, President of the Glee Club and Chairman of the Language Lab — and still managed to graduate Cum Laude!

Paul's words seem to sum up the Morgan experience at GDA: "Governor Dummer was special because the competition was not too intense, and there was the opportunity to be a significant fish. It is far easier, generally speaking, to make the choice of Governor Dummer Academy over a large school. Life there is much more fun and a very useful experience."

The devotion these men have shown to their families, their schools (all attended Harvard, as well), to their business and their community is truly commendable, as they remain ever aware of the needs of those around them. Such a role is not an easy one to play, and yet for the Morgans — Paul, Peter and Dan — it is carried through most admirably.

Parent Profile: Eddy G. Nicholson

Ed Nicholson P'83

Ask most teenagers and they will tell you that their parents have a catalog of sermons — and that these sermons, ranging from 30 seconds to 3 minutes, get delivered on most any occasion and in any setting.

In Congoleum Corporation's informational 12½ minute video cassette presentation, President and Chief Operating Officer Eddy G. Nicholson describes one of his business philosophies, which he says (on tape) his children call sermon #27 — "You've got to have a bone deep desire to be the best." This personal guideline, along with many others, communicated throughout the Congoleum work force from executive to welder, has helped turn the company from a negative growth position in 1975 to, in 1983, the 16th largest privately held corporation in the U.S., with revenues approaching \$1 billion.

Ed Nicholson and his wife Linda have three children, Kevin 21, Dee Dee 19, and Steve 18.

In 1980 when Congoleum management — Nicholson and Byron Radaker, Chairman and Chief Executive Officer — was considering relocating its headquarters to a city more central to its operating divisions, one of many measurements for choosing the new location was schools. Once they decided upon Portsmouth, New Hampshire, Steve, then 16, applied to GDA and was accepted. An

"awesome" tennis player, he is Captain of the team and, says Coach Wally Rowe, "very tough to beat."

Congoleum Corporation has three operating divisions: Congoleum Flooring, headquartered in Kearney, New Jersey; Bath Iron Works in Bath, Maine; and Curtis Industries in Eastlake, Ohio, specializing in the packaging and distribution of automotive and industrial hardware. The corporation has plants in twenty-two cities and employs 13,000 people. Once public, the company became privately owned when the Congoleum Corporation stockholders accepted an acquisition offer of \$38 on shares that were then trading at \$25 per share, a \$445 million transaction financed through borrowing. Nicholson and Radaker, a few other officers, and seven financial institutions make up the ownership of a company that now looks to a future of growth and expansion rather than stagnation and decreasing profits, as was the performance prior to 1975.

Nicholson and Radaker joined Congoleum Corporation in 1975 when the company's debt exceeded \$76 million, credit was expiring, and earnings had fallen from \$22 million in 1973 to \$500,000. Congoleum was at that time what Nicholson describes as a "classic" conglomerate: a holding company with several different divisions, each operating independently and autonomously with little central direction and no unifying corporate vision. The method of operating changed from one of a holding company to that of an operating company.

Their job was obvious: to turn the company around. They developed a stiff set of seven operating guidelines and measurement standards for the divisions. Only the original Congoleum met all the criteria. Two others, including BIW had the potential to meet them, recalls Nicholson. The rest of the divisions flunked the test and were sold. Over a two-year period, Congoleum thereby sharply reduced its debt and substantially increased its revenues and cash flow, so successfully that it became a prime target for acquisition by some other conglomerate. So it was, in 1979, four years after Nicholson and Radaker assumed the management of Congoleum, that they put together their successful buyout offer to Congoleum stockholders.

Congoleum Corporation today flourishes. Congoleum sheet vinyl resilient flooring is a household word. Curtis Industries — not as visible a name as Congoleum flooring or BIW — is, according to company literature, the second largest packager and distribution of automotive, maintenance and specialty items in the United States. Their automotive key equipment is used by 97% of the U.S. car dealers. Bath Iron Works — well known in the northeast, by the Department of the Navy and their competitors — is booming.

Ed Nicholson, 45, the executive, is a meticulous man. Trim, well groomed, precise, articulate, he exudes confidence. He is by training a financial analyst, graduate of Memphis State University, the holder of an honorary doctorate from Harding College. He lectures at several universities and management seminars.

He describes his role at Congoleum as a "judge," to evaluate ideas and the performance of people. In 1975 he knew not a thing about shipbuilding or flooring, but he knew how to manage, assess and motivate people. A good executive, he says, can lead any company if he/she knows how to implement sound business practices. He says he serves as manager of the corporation's assets — humans, financial and physical. "Back in 1975 we had a situation where we had to redefine the jobs of our people. Some managers with good talents were being underutilized, others were doing the wrong job. We grow as our people grow, and to that end we are constantly striving to improve the performance and quality of our people." This spring, he says, 312 MBAs applied for eight positions.

Congoleum strives, he says, to make the work-place as comfortable as the person's home. A visitor to the corporate headquarters can attest to his statement: the offices are beautiful, although not overdone, and provide an extremely comfortable atmosphere for work and creativity. The art and antiques which adorn the individual and general offices are outstanding, and in many cases, unique.

Congoleum's executive management recognizes that its future is dependent upon well motivated and ambitious people who share common directions and purposes. Ed Nicholson is a man who enjoys a challenge and looks forward to that future.

For our continuing series of alumni and parent profiles, we chose for this issue to focus on the executives of two major international businesses — the Morgan Construction Company of Worcester, Massachusetts and Congoleum Corporation of Portsmouth, New Hampshire.

David Kinder '83 and Chris Chance '85 in "The Boyfriend".

Nostalgia at GDA in "Boyfriend"

The nostalgia and romance of the 1920's were felt at GDA in the Academy Players' production of "The Boyfriend." Under the direction of Lawrence Tretler and musical director Julie Soloway, the show ran for two performances at the end of February.

Talking about his choice for the winter play, Dr. Tretler said, "It is important for those of us involved with the GDA Theatre Department to stretch ourselves to do things we haven't done before, to expand our repertoire, doing such plays as "Godspell," "Tartuffe" and "The Boyfriend." We should never become too comfortable with one type of show. We have to continue to experiment, even if it means taking a risk. Theatre can never be too easy."

This year's English Speaking Union Exchange student, David Kinder '83, performed well in the lead along with Chris Chance '85, in her role as female lead in her debut on the GDA stage. They were supported by fifteen other veterans and newcomers to the Academy Players group. Rochelle Smith '84, now an experienced choreographer, did a marvelous job with the dancers, and Ms. Soloway superbly arranged the music. The costumes were colorfully designed by Mrs. Louise Beckett and effectively reflected the era.

"I was pleased with the many hours of extra work, warm ups and dance

Cast of "The Boyfriend".

review the cast put into the production. You might say a lot of muscle went into it, and no one came away without learning a great deal about theatre, about different plays as well as this particular playwright's approach," said Dr. Tretler. "It actually was an experiment for me as a director as this type of show is a different kind of experience for me (not to mention the students). It has no serious theme and was simply a fun show."

Tretler's choice of "The Boyfriend" involved experimenting with a style of song and dance that as an audience we are not used to seeing anymore, as it is a spoof of a type of musical popular in the 1920's. "For many, life was as easy

as it is portrayed in "The Boyfriend," which reminisces about a type of romance people are generally too sophisticated to believe in today," reflected the Director. "Once we look at the play beyond everyday realism, we can accept the love and coincidence in the play merely as part of the stage production, allowing us then to simply absorb the play's theatrical message."

To add the final touch to the production, David Kinder received a note from the English playwright Sandy Wilson, who was happy to hear that GDA was performing his play, and wished the cast well.

It is evident that the arts are truly alive at GDA.

"Dance This Mess Around" A Success

A dance performance entitled "Dance This Mess Around" was presented in March in the Thompson Auditorium to a standing room only crowd. Representing the culmination of a term of concentrated study under instructor Donna Roaf, forty GDA students gave a colorful and talented display of skills.

Choreographed and performed in individual and small groups, the students danced to a variety of contemporary songs from "Stray Cat Strut" to Fleetwood Mac's "Oh Daddy." The dances were each unique in their approach and were all impressive in their message.

Other highlights of the program included Chris Frangos '83 on the piano, and a montage of slides entitled "Behind the Scenes" taken by GDA students of dance classes and rehearsals. The slide show was put together under the direction of photography instructor Nancy Dudley, and the musical arrangement by Chris Stowens, Coordinator of the Arts.

Appropriately, the final number literally did dance the entire company around, as all forty students performed together to the hit "Mony, Mony" by Tommy James and the Shondells. All in all, a superb performance by the dancers, and a strong indication of the positive direction of the dance program.

"Terezin" Children of the Holocaust

The Newburyport Children's Theatre presented the heart-rending play "Terezin" by Anna Smulowitz of Newburyport at Governor Dummer. The play is an intense portrayal of the horrors of the Holocaust, in particular the story of six children in the Czechoslovakian concentration camp, Terezin. Running for nine nights in February in West Newbury, the cast came together again to perform in the Thompson Auditorium shortly before Easter.

In her writing, Ms. Smulowitz is actually drawing upon the experience of her parents, who were in the camp and among a handful of survivors. The protagonist is seventeen-year-old Miriam Fischer, played by GDA's talented Elea Kemler '83, who becomes one of the 100 survivors of the 18,000 children who had been sent to Terezin. The play movingly involves the audience in the fear and hunger the children experienced while separated from their families in the camps, as they watched hundreds of people taken away each day by trains outside their cellblock window, some hoping their turn would never come, and others

Elea Kemler '83 performs in lead role in "Terezin".

ironically actually thinking that the train would take them home. Often their only method of communication is through artwork, poetry and letters, such as that which Miriam leaves behind, as testimonies of the destructive and inhumane treatment they experienced.

Excerpts from "Terezin" with Elea Kemler in the lead and being interviewed, were shown in February on WBZ-TV in Boston.

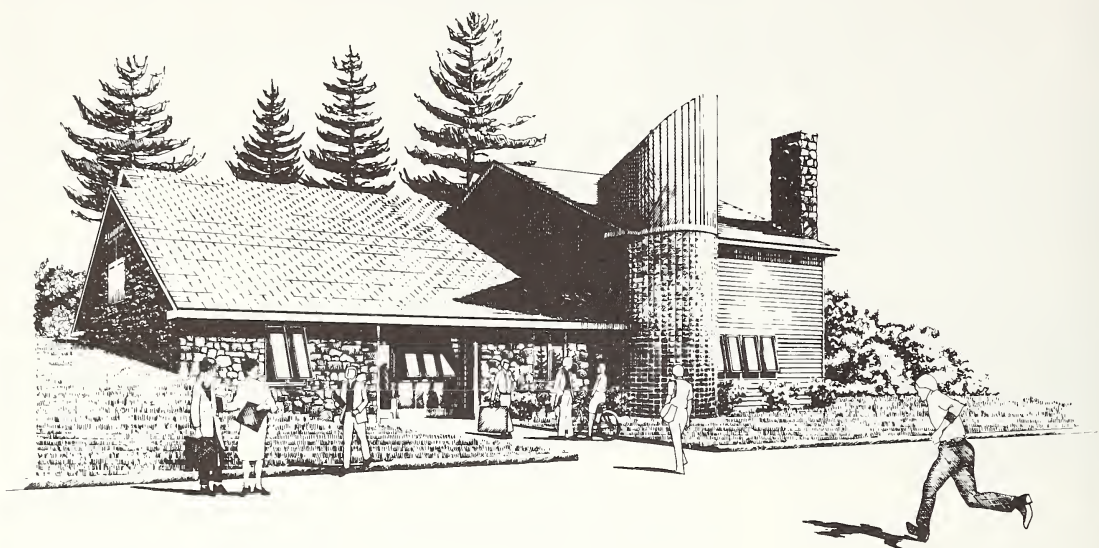

The producers of the Newburyport Children's Theatre are now negotiating with Boston theater sponsors to bring the performance there.

Instructor Donna Roaf receives applause.

Kim D'Orazio '84

Edgar Kaiser Visual Arts Center

As most alumni and parents close to the everyday programming at Governor Dummer know, the most pressing unfunded facilities development at the Academy is the construction of a visual arts center. The need has been verbalized for quite some time bringing us to the present where the planning is conceptualized and the architects plans drawn. Now, the campaign to raise \$250,000 to complete funding for the center is underway.

To be named the Edgar Kaiser Visual Arts Center — by vote of the Board of Trustees in grateful appreciation of Mr. Edgar F. Kaiser, Jr.'s (GDA '61) leadership gift to the "Milestones" campaign in memory of his father, Edgar F. Kaiser — the facility will encompass the art gallery and studio, the photography studio, a ceramics and pottery studio and generous classroom and multi-purpose space.

Governor Dummer's programs in art, photography, music, theater and dance have grown substantially over the past five years, with close to two-thirds of the student body enrolled in the offerings.

The present art studio and classroom is located in the basement of the Thompson Center for the Performing Arts; the art gallery is housed in the basement of the Parsons mathematics and foreign language classroom building, where the photography lab is also located. Both buildings, on opposite ends of the campus, are stretched beyond their limits. Unfortunately, the art program has suffered because of space limitations and scheduling difficulties.

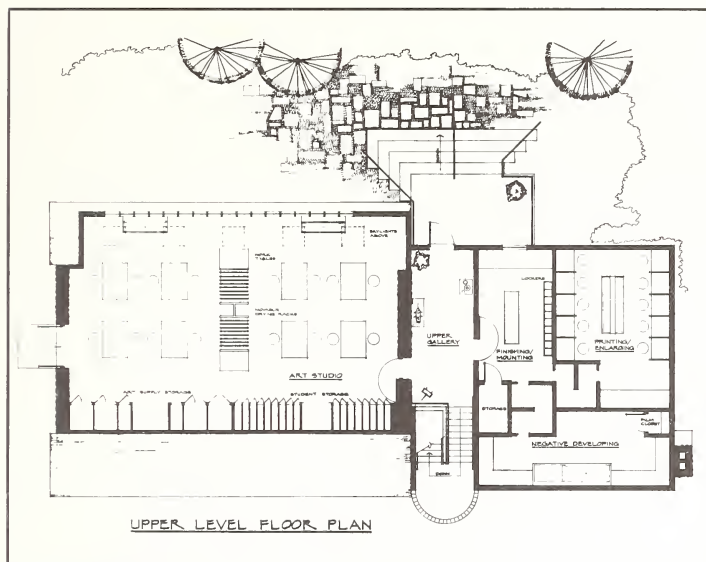

The present visual arts curriculum includes three levels of studio art, photography, an art history course, and an individual study program in art or photography. With a new facility, we will be able to strengthen the present courses in the areas of graphics, painting and drawing and to contemplate developing others in film, pottery (basic and advanced), the interrelationships of graphics and photography, and three-dimensional art — wood, wire, metal, clay.

The structure to be renovated and expanded for the Art Center is the "Stone Garage," centrally located on the campus surrounded by Phillips, the Thompson Center, Moody Dormitory and Morse Field.

The cost of construction is projected at \$400,00 towards which \$150,000 is committed. (\$100,000 from the "Milestones" campaign fund and \$50,000 from the parents of seniors, Class of 1983.) To reach our goal and fund the project, \$250,000 must be raised. Construction will begin when the total amount is committed.

There are many named gift opportunities within the Kaiser Arts Center, including the Gallery, Art Studio, Ceramic Studio, Photography Laboratory and the classrooms. The named gift is a lasting way for donors to memorialize the names of loved ones or, indeed, their own good names. All such gifts will be recognized by an inscription, plaque or other permanent record deemed appropriate by the donor.

The construction of this Visual Arts Center has been Mr. Ragle's dream since his return to Governor Dummer in 1972 as Headmaster. In tribute to his leadership during the past eleven years many alumni, parents and friends have already given towards the Center.

"As some of you know, almost since my return to Governor Dummer in 1972, it has been my pipedream that someday, sooner rather than later, the Academy would realize a truly suitable visual arts facility comparable to the beautifully conceived Schumann Science Center. Today we have in front of us some exciting plans for adding to and converting the Stone Garage, on the verge of the Morse Field, into the Edgar Kaiser Art Center."

John W. Ragle
Headmaster

Named Gift Opportunities

Lower Level

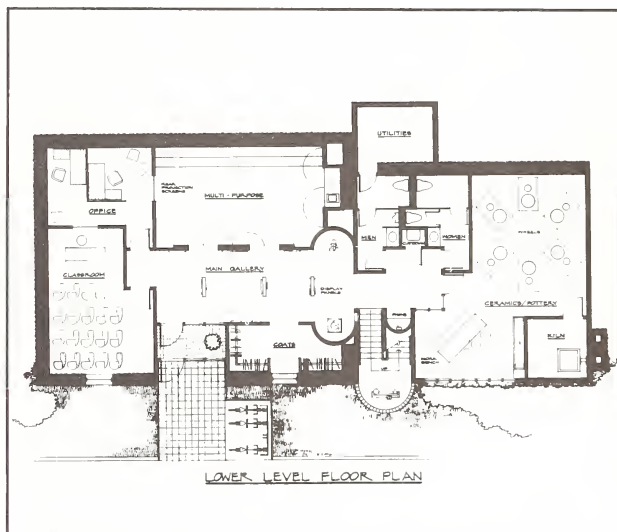

Main Gallery	\$75,000
Ceramics/Pottery Studio	50,000

Exhibit Gallery	25,000

Terrace and Landscaping 20,000

All named gifts will be honored by an inscription, plaque or other permanent record deemed appropriate by the donor.

If you would like to join others in commemoration of Mr. Ragle's contributions to Governor Dummer Academy, you are invited to send your gift to the Development Office, or call or write if you have additional questions or would like to explore the named gift opportunity.

Gifts are tax deductible and may be in the form of cash, securities or marketable assets.

Winter Sports

The season of winter brought good fortune to the varsity athletic squads in 1983, as they put together one of the most successful winning seasons in the history of the Academy.

When all varsity records are added, the Governors amassed a record of 55-17, a 76% winning effort. But that is only scratching the surface. While the wrestling and boys' basketball teams notched ISL titles, a tournament championship was won by the volleyball team, who also tied for first place in the league. Although overshadowed by these accomplishments, the remaining teams performed extremely well. For all involved, it was a sensational year and spectacular season to take pride in.

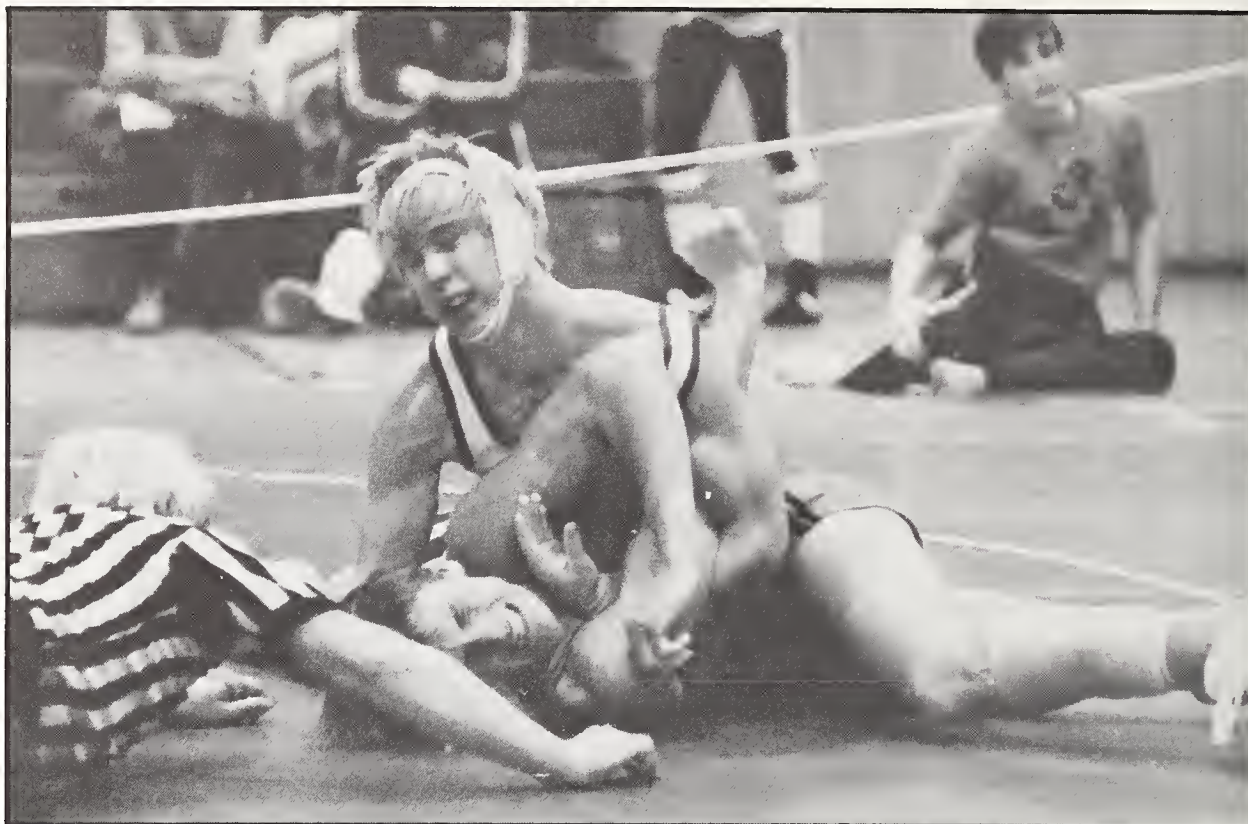

Hockey Squad Comes On Strong

The varsity hockey team had a most successful campaign, coming away with an 11-5-1 mark (8-5 in league). Their overall record positioned the Governors in third place in the Eberhart Division. The biggest win of the season took place in the final contest versus St. Mark's. The ice hockey powerhouse from St. Mark's had not tasted defeat in some three years in league competition, and they were about to make it four years without a loss. The Governors had other plans, however, and handed St. Mark's a 7-6 defeat, thus wrapping up a firm hold on third place.

Tri MVP's were given in this sport. The line of seniors Chris Laganas, Peter Riley and Dan McLaughlin was the top scoring line in GDA history; as well as this year in the league and are well deserving of the award. Laganas and Riley were also cited for ISL All-League awards. The Coach's Award was presented to Nolden Johnson '85 by Coach Steve Harrington.

Volleyball Clinches #1 Spot In League

The girls' volleyball team started out slowly, but managed to put all of the pieces together after the Christmas vacation. The girls went on a rampage after losing to BB&N in January, closing out the season with ten unanswered wins, including a victory versus BB&N in the final match of the tournament to place them in the number one spot in the league. The MVP Award was given to senior Sue Towler, whom coach Betsy Clark heralded as the "mainstay of the program, possessing great skills, good ball control, and a consistent serve." Towler was also named to the All-Tournament team.

Alex Cawley handles his opponent.

Wrestlers Win Tournament

The grapplers had yet another successful season, due, in part, to the superb coaching of G. Heberton Evans. Heb was presented with the 1983 New England Coach's Award for outstanding contribution to the sport. The award was presented following the New England Championship at MIT.

The grapplers rolled through the regular season and shared the ISL title with St. Paul's School and Milton Academy. The highlights of the season were many, but perhaps the most

outstanding performances were in the final tournament of the year at MIT. The boys won the New England Team Tournament trophy over schools ranging from Class A to GDA's Class C, registering eight individual winners. Of these eight, three were individual champions. Gerry Tallman '84, Greg Skaff '83, and Alex Cawley '83 all came away with titles. Because of their strong performances throughout the entire year as well as their leadership, Co-Captains Skaff and Cawley were awarded the club's MVP's.

McLaughlin and Riley move in for the goal.

MVP Andre LaFleur '83

Basketball Has Outstanding Season

The boys' basketball club had another superior season under the leadership of coach Tom Tindall. The record totalled 16-3, with an unscathed 14-0 mark in the league. In post-season play, GDA decided to participate in the Class A tournament, feeling that the Class C title would be semi-automatic and lack challenge. Unfortunately, second-seeded Northfield-Mount Herman dismantled the Governors' dream of a Class A title. Andre LaFleur '83, ended his career at GDA with some overpowering individual statistics. LaFleur established new records for games played (88), assists (483) and steals (377). His point total is 1,203. LaFleur and Steve Bucknall '85, shared MVP honors. "Buck" averaged 21.4 points per contest. David Carlson '84, was named Coaches Award recipient, an award instituted by Tindall some years back. LaFleur and Bucknall also received ISL All-League Awards while Joe Bowman '84 received Honorable Mention.

Three players, Bucknall, Bowman and LaFleur were named in the Newburyport Daily News Area All-Star Team, with LaFleur receiving Player of The Year honors.

The final award of the winter season went to LaFleur, who was deemed recipient of the Andrew M. Navoni Award. This plaque is given annually to the player in the league "who best demonstrates gentility, modesty, dedication, and the drive for competitive excellence, as well as outstanding sportsmanship as exemplified by Andrew M. Navoni."

Nordic Skiing

"The Nordic Ski Team should be proud of their success," stated Coach Robert Welch, "as the lack of snow kept the Governors training behind schedule throughout the season." Therefore, the full potential of the squad was never quite reached. Co-Captain Bart Calder '83, the number one ranked skier on the squad, was cited as MVP for his fine efforts. Girls' captain Hope Williams '83, was also honored as Most Valuable for her endurance as well as her ability.

Winter Track Has Upbeat Year

The winter track team, coached by Dean Eastman and Neil Glickstein had many highlights, even with a sub .500 record. The relay team consisting of Charlie Cashin '84, Andy Eaton '86, Brett Engle '84, and Chris Goddard '85 earned a second place finish at the Interscholastic Meet, held this season at Moses Brown. Cashin had a superlative season, and was deemed Most Valuable Player. The third-year letterman ran second in the Frigid River run in Newburyport, while placing third at the Interscholastics in the 300. His versatility was a major factor in his selection, as Cashin was often seen competing in several events in one meet.

Perhaps the best success story of the entire campaign, however, belongs to Brett Engle. In a dual meet early in the season, Coach Eastman noticed that only two competitors were entered in the pole vault event. Realizing that points were given for the top three finishers, he added Engle's name to the event. The strategy paid off as first-time vaulter Engle sailed over the bar to win, surprising himself, coaches and teammates alike.

Liz Hanson helped the girls' squad this season by capturing the Interscholastic Championship in the 600 yard dash. Freshman Sue Pelletier anchored the squad, being a strong performer in the shot put. In all, eleven members were awarded with varsity letters.

MVP Anna Hill '85

Girls' Basketball Captures Winning Record

In girls' basketball action, the Lady Governors remained competitive, en route to a .500 league mark. The biggest win of the season came midway through the schedule, as the Gops handed a then undefeated Pingree squad its first loss. "Despite the lack of key ingredients of height and experience, we turned it around to work the game in our favor, and didn't let their height advantage intimidate us," said Coach Jeff Gosselin. "What we had was pride and willingness to work hard. It was a cohesive, unselfish and enthusiastic group. I am proud of what they were able to accomplish."

Coach Gosselin relied heavily on the scoring prowess of sophomore Anna Hill '85. Hill broke the single-season scoring record at the Academy, averaging 18.5 points a contest. Hill also played an aggressive style of defense, proving that her next two years at Governor Dummer will be profitable ones. She earned the MVP Award and was the only sophomore in the league to be chosen to the ISL All-League team. The return of Hill, and the loss of just two players to graduation, makes the season of '84 look promising.

Class Notes

Editor's Note: We are now underway with our class secretary program. Send your notes directly to the secretary for the next issue (publication deadline June 22nd) or if there is no secretary, to The Alumni Office, GDA.

"Old Guard" 1930 and earlier

John English '28, Class Agent and Secretary
Woodsneck Road, Box 322
East Orleans, MA 02643

'23

60th
1983/REUNION

JIM GARDINER has probably the most ambitious program in the over-72 group in our Governor Dummer alumni group and the world beyond, too! Jim has embarked on a program to climb to the highest point of land in each state after reaching the age of 71. He is now 76 and has achieved his objective in 14 states so far. He did the Tuckerman Ravine Trail to the summit of Mt. Washington, NH, at 74 and climbed Mt. Katahdin, Maine, last year at 75. After a 42-year career as an actuary with Metropolitan Life, Jim had to retire at 65 so he immediately started a second career with the New York State Insurance Department and has been with them for eleven years as a pension actuary. His office is in the World Trade Center in Manhattan, and to celebrate his 76th birthday last winter he and two fellow climbers walked up and down the 107 floors! Jim's other avocation for many years has been the Sons of the American Revolution. He has served as president of both the Empire State and National Societies and continues active. A few years ago, Jim was enrolled also in the Descendants of the Settlers of Newbury, and the annual meeting is held in Byfield so he gets a brief and satisfying look at the Academy and its progress each year.

HENRY CURTIS AHL is painting still in the large Rowley home of his late parents, Henry Hammond Ahl and Eleanor Curtis Ahl, to which he returned after his graduation from Harvard, and making his own distinctive contributions to the growing recognition of the Ahl family in American art. While the father was best known for his portraits of political figures and religious murals and the mother for her still-life, Henry has drawn often on his native surroundings for impressionistic seascapes and landscapes which he signs "Ahl Jr." Two titles emblematic of his work are "Plum Island Light" and "Sailing at Ipswich". His parents proclaimed: "No one can paint sand dunes like he can!" (See related story on page 3.)

'24

After a number of years in a Boston advertising agency and raising a family which grew to include grandchildren, **BILL CARPENTER** was attracted into the world of painting on the North Shore and last year sold more than 30 pictures.

HARRY HALEY was the subject of a surprise on his 50th wedding anniversary when his three daughters, now living in Germany, Connecticut and Maine, returned to the family homestead in St. Stephen, New Brunswick, to stage the celebration.

TAKANNO KUKI writes saying he is still living in Tokyo and invites alumni to call when visiting the city.

FRED INGHAM celebrated his 80th birthday at his home in Seattle, Wash. Fred's father was a cousin of the late Dr. Charles S. Ingham, headmaster from 1907 to 1930, and Fred responded to Dr. Ingham's urging to come to the Academy and prepare for Yale, which he did.

ERNEST FERDINAND informs us that he and his wife have moved to housing for the elderly. Mrs. Ferdinand is in a wheelchair, her left side is paralyzed and she is blind.

'26

Eleanor and **JERRY MAY** sold their big old Victorian home in Newton during the past winter — the home where they raised eight children — and moved back to Kingston, Mass., where Jerry spent his school years. Their address now is 204 Main Street, Kingston. Jerry continues as senior partner in the Boston law firm of May Bilodeau Dondis & Landergan in Boston and has specialized in libel law, but he looks forward now to phasing gradually into retirement.

GEORGE PHILLIPS, who has been living for some years in San Diego since retiring from the diplomatic service, suffered a severe stroke about a year ago and remains in the Alvarado Convalescent Hospital.

'27

RUSS HAMILTON quit New York for Massachusetts in 1953 but kept toiling as an advertising agent for book publishers, operating out of his home in Greenfield, until his retirement as vice president and ad manager for The Stephen Greene, Brattleboro, VT., in 1977. Now he and Marge occupy an "in-law" apartment in their daughter's home in Pittstown, NJ, from which they venture forth once a year to visit their other daughter in California and more often to visit their son Russ in Reading, MA. Russ, Jr. has the only grandchild, Katie, who certainly will be brought to Governor Dummer for exposure when she is a bit older. Retirement for Russ has meant a chance to read books for pleasure without having to figure an angle for advertising copy, so reading is his prime activity. Additionally, when arthritis permits, he plays jazz on the piano, continuing a personal pleasure he developed on the old, square Miller grand piano in the original red schoolhouse at GDA.

LEN LAWSON sold his prosperous gift shop in Sarasota, FL and retired in 1977. Since that time, he and Pat divide their

leisure between their home in Sarasota and their summer place on Lake Sunapee, NH with a good bit of travel, including for example, New Mexico for the last Christmas holidays.

'28

55th
1983/REUNION

PETE ALBIANI married Mrs. Ethel Lane Truedson in Harwich, MA, last November, and they have settled into a state of renewed bliss on Cape Cod. Pete retired from the restaurant business several years ago, after successfully launching the Mill Falls restaurant in Newton Upper Falls, but he maintains an association with the World of Watson's in order to keep out of trouble.

BILL BOTTGER retired from Sperry Rand Business Systems in 1973 to form his own business, which he still operates from the family home in Roanoke, VA. For some 25 years, the Bottgers had a summer home on one of the Maine lakes, but when their two sons went out on their own, they sold it and now get their recreation cruising on Chesapeake Bay in their power boat. One of the Bottger sons is a partner in a Los Angeles law firm and the other runs his own steel and metal business in Richmond, VA; they have contributed six grandchildren to the Bottger scene.

HOOT CROSBY can be seen almost daily tooling around the old roads of lower Cape Cod in his little red Datsun pick-up. The Crosbys originated on the Cape, in the Cotuit area, and returned in retirement, settling in East Brewster. Hoot does less fishing and clamming these days — but he does love that little red pick-up.

RUSS CROSBY lost his wife last fall but lives on alone in their large old home in Pembroke, MA. Russ retired a few years ago as manager of Brockton operations for Liberty Mutual. His two daughters live in California.

KARL GOVE and Jean live in retirement in the old Gove summer home and farm in Seabrook, NH, just across the way from the burgeoning nuclear-energy plant. Karl remembers family trips from Salem, MA, to the old farm as a child and loves living there and preserving it. He served for 17 years on the Seabrook School Committee, but now occupies himself with his garden in the summer and keeping warm in the winter — with an occasional skiing safari into the White Mountains.

"**BILL**" **HART**, our old quarterback, sold his business in Lynn, MA a few years ago and retired to Warner, NH, moving south in the winters to keep his golf game in shape. After starring in football, basketball and baseball as a youngster, Bill has turned his talents to golf with the success you would expect.

'29

BOB DOWLING, chairman and president of Robert G. Dowling Insurance Agency, Inc., in Hyannis, MA, is coming up on two significant anniversaries: 50 years in the insurance business and his 50th reunion at Bowdoin. He faces them with equanimity. "I still keep track of what's going on around here," he says in his pleasant corner office, "but I really don't work very hard any more!" He recently completed a second tenure as a member of the Executive Committee of the Massachusetts Golf Association and, relieved of those duties, he looks forward to informal games at Hyannisport and Oyster Harbors this summer.

WALTER WHITEHEAD lets us know that after fifty years he has retired from Paine Furniture Co. and is "happy and healthy".

CARLOS FERNANDEZ died just before Christmas after a short illness, according to word from his son-in-law in Florida, Columbia. Carlos returned to Mexico after his schooling in the United States but remained a loyal supporter of the Academy, which he last visited two summers ago.

ROD GEARHART lives most of the year in Delray Beach, FL, as has been his custom most of the years since he sold his business in North Andover, MA. For a couple of years, he divided his time between New Hampshire and Florida but found that a bit much and now spends at least nine months a year in the south, working part-time in a bank, golfing twice a week and thoroughly enjoying life. The Gearharts do visit in New England and travel each summer.

DAVE HYAMS moved to Cape Cod so soon after Brown and Harvard Business School that he is almost a native, and he has remained there in retirement after some successful years as an innkeeper. A confirmed advocate of fitness, Dave is a regular at the health club and in season he tends his garden in Centerville with extraordinary zeal.

TOM WALKER operates the Wood Investment Co. in South Easton, MA and lives in Stoughton — but you will find him on Cape Cod most of the time. Tom has two married daughters living on the Cape, keeps his fishing boat in Waquoit, and spends many hours trying to catch record-size blues and bass.

'30

MAL WALKER retired from the New England Telephone Co. a decade ago, after 40 years of service, with a heart condition which limits his activity, but he has adapted to the restrictions and enjoys life in Melrose, MA and, in the summers, in Scarborough, ME — walking, reading and developing his coin collection. He has one bachelor son in Maine and a married daughter in Newton with "two beautiful daughters ages 6 and 1... perhaps both will make Governor Dummer one day!" Mal says, "I got back to Governor Dummer on several occasions in the Sixties and early Seventies. It is

quite a thrill to see the changes and to observe that the basics haven't changed too much. I have some wonderful memories of the old school and shall continue to cherish them."

Col. Carl Buechner, Class Agent
1053 South Lakemont Circle
Winter Park, FL 32792

Volunteer needed for class secretary.

MARG and WARD FEARNESIDE, with daughters in Santa Clara, CA, Madison, WI, and Brazil, had the kind of busy year on the road one would expect. It began with a trip to Manaus, Brazil, and wound up with a holiday trip to Wisconsin and California. In between, Ward took student parties into the White Mountains from their home in Wellesley Hills, MA and he and Marg spent two weeks in Europe. Marg has concluded her two-year term as president of the Wellesley Society of Artists and has had two exhibits, working now with watercolors.

Dr. Harold Audet,
Class Agent
2212 Grove Avenue
Richmond, VA 23220

Volunteer needed for class secretary.

RICHARD CARY tells us about his new granddaughter, Sarah Huntington, of Liverpool, NY. Sarah is the fifth grandchild.

CLIFF SINNETT writes: "Business as usual at Henry M. Payson & Co. Since turning 60 years old and retiring from the Naval Reserve in 1967 after 22½ years of service, have become eligible for all retirement benefits including space available travel. We have made four treks to Europe in four years. Each time we revisited places where I served in WWII. Saw people I haven't seen since 1945."

NORMAN FOX reports he is retiring from teaching after 21 years. He is helping prepare for his 40th reunion at Union College in Schenectady and, also, hopes to visit GDA for his 45th.

GORDON ELLIS wrote this note back in February — readers will want to change the tense. "Trying to keep my head above water. Have three girls and one boy. Oldest girl married with one three-year old, boy engaged, next girl to be married February 12, 1983 (Congratulations!) and the baby at 22 was married in May '82 with **WALTER FAGET** and wife Mary and **HENRY FAUROT** attending. We plan another get-together in February."

Wellesley Hills, MA 02181

Volunteer needed for class secretary.

GORDON JOHNDROE of Fort Worth, TX writes: "I am with the law firm of Cantey, Hanger, Gooch, Munn and Collins. Since my retirement from being City Attorney for almost 27 years, I have been with this firm and engaged in a very active practice with trial and appellate work. My son S.G.J., III, is a partner. I see **DWIGHT MURRY '40** who is in the oil business in Dallas."

JOHN MILLER tells us he's retired — living six months in Swampscott and six months in Ft. Lauderdale. Brother **DOUG '44** reports, however, John is still pretty active.

HOWARD STIRN'S list of activities is pretty lengthy. "Chairman of the Board, Sea Research Foundation which owns and operates two large public aquariums at Mystic, CT and Niagra Falls, NY; Chairman, Aquarius Systems, manufacturers of equipment for keeping marine life alive for research and education; President, Instant Ocean Hatcheries — breeding tropical, salt-water fish; President of Board, Hawken School in Cleveland, OH; plus several other charitable organization boards. Spend 3½ months every summer running a guest ranch in Jackson Hole, Wyoming. Amateur photographer with at least one one-man show each year. In my spare time I'm trying to learn about computers!"

From **HAROLD KNAPP'S** Christmas letter of last December: "Work at the Dept. of Defense, totally convulsive and time-absorbing by itself, with four times interrupted by subpoenas requiring lengthy depositions (in Washington) and testimony in federal court (in Salt Lake City) on behalf of sheepmen and residents downwind of the Nevada test site claiming radiation damage from nuclear tests conducted 25 years ago. To add insult to his already overloaded schedule, he bruised his right foot by stepping on a sharp stone and missed the Boston Marathon. With admirable determination, he converted the injury to a torn ligament in his left knee, and couldn't run again until December. But there is hope for him yet, Barbara says. When the list of crucial things to do became overwhelming, he spent a whole weekend building a huge swing for his grandchildren." (There are three of them.)

'42

Dr. William Hill, Class Agent

HOMER AMBROSE is retired and living in Annandale, VA with his wife, Marie, after traveling the world for 20 years with the United States Army Corp of Engineers. He remembers that cold fall of 1944 at Adylenrood and sends kindest regards and best wishes to his classmates of 1947.

RALPH "BILL" BAILEY and **DAN HALL** played on the Old Timers (perish the thought) Hockey Team on Alumni Winter Sports Day. Bill and Dan carried the day for the Class of 1947.

ED CARTWRIGHT has passed the reins of his business to younger members of the family after 34 years and has moved to Stuart, FL, for the winter and will return to Maine for the summers.

JACK DEERING sold his business, Barker Deering Associates, to Paine, Webber, Jackson & Curtis in October 1981. The new organization, The Barker Deering Financial Planning Unit of Paine Webber, will continue to operate in Portland under the direction of Jack and his partner. Jack is very involved in counseling applicants to his beloved alma mater, Colby College.

HENRY DUNKER, "is pleased to tell his classmates and other GDA friends of his marriage on January 2, 1983 to Brenda Green of Weymouth, MA, a very lovely lady whom he looks forward to introducing to the GDA community."

DAN HALL, a GDA Old Timers Hockey Team player has three hockey players in the family: Meg at Dartmouth, Jeff at Reading High, and Ted, a Reading Pee Wee.

BILL PHILBRICK is tending to the activities of the William Philbrick Company, in Skowhegan, Maine. He sends his best to the Class of 1947 and hopes to meet again at the next reunion.

DAVID WILCOX writes from West Hartford, CT, "sorry to miss reunion."

LEE WILSON writes, "married, three children, have been with New England Telephone Co., for last 27 years; happy, content, looking forward to next 20 years with the same enthusiasm I have lived the last 53."

JIM KNOTT, living in almost empty nest with Class of 1947 Secretary, Betty, started a new business, Riverdale Mill Corporation in Northbridge, MA with sons, Andrew and James. Son Ted will graduate from Boston University this spring. Daughter Janet, is a staff photographer with *The Boston Globe*.

DAVE ELLSWORTH, 459 Wianno Avenue, Box 35, Osterville, MA 02655. "We now live on Cape Cod. Son David is in California, temporarily; daughter Cindy is a sophomore at University of Colorado-Boulder, and is on the tennis team. My wife and I have two kids, are all super-well."

BILL DAY, 1720 South Ditmar Street, Oceanside, CA 92056. "Since I retired from the USAF, as a Lt. Col. after 28 year career, I moved to Oceanside, CA. I am now a licensed life and disability agent in California and am a limited partner in an insurance agency. The weather here is fantastic and business is holding up well under the present climate. I'm a grandfather and expect 4 of 5 children to be married by next year this time."

HARRY BEAUDRY, 4349 Westdale, FT. Worth, TX 76104. "Nancy and I haven't been back to the Boston area for some years but hope to this or next summer. I'm still in education — 16th year at University of Texas at Arlington. Our children are 19, 14, 13, 12 and 10. Three have been to New England briefly, and we want the other two to see it with us. We get to Colorado about twice a year."

FRED BEAUDRY 311 Main Street, Owego, NY 13827. "Family data: Wife, Yvonne; son, Joel, U. S. Navy; son Mike, a senior at State University of New York at Fredonia; daughter, Jane, a freshman at University of Bridgeport, CT. Business: principal in general insurance agency since 1963. Internationalism: housed Rotary exchange student from Denmark 1980/81 and continue family contact with the student. P.S. The past 35 years have gone by too fast."

DAVID ROCK, Whitaker Road, Troy, ME 04987. "Since our move into the hills of Troy, Maine in 1973, I've been in the timber growing business: on a large scale as forester for the New England Forestry Foundation and on a smaller scale on our own 85-acre tree farm."

SAM (KEN) BRUCE, 312 Belle Isle Avenue, Belleair Beach, FL 33535. "We made a slight course change in our career path in 1980 and moved from good old New England (50 years) to "sun" country. Took over presidency of International Electronics Company. Will never become a per-

Alumni Squad

manent transplant as our children and grandchildren are in New England and we spend much of the summer at our cottage on Lake Winnepesaukee. We do enjoy the Florida weather (October-June). Of our four children — two are married, one is just out of college, and our fourth a freshman in college."

MILTON W. HEATH, JR., 80 Old Orchard Road, Sherborn, MA 01770. "This is the year our family business celebrates its 50th anniversary. And, still going strong. Energy and natural resources are our major fields with leakage detection and control on pipelines carrying water, oil, gas products our specialty. That's one transportation system that continues to grow. Travel and its positive influence is a major factor in this family of five. Our services or equipment are in use world wide and through this medium we are offered an excellent opportunity to learn much about how others live. We are well blessed."

ROBERT HILL, 143 Hickory Lane, Naugatuck, CT 06770. "Chairman, Board of Trustees, Howard Whittemore Memorial Library; Trustee, CT, NY, NJ, P.I.A., Group Insurance Plan; Chairman, Past Parent Committee, Westover School Annual Fund; Chairman, Special Gifts, United Way; Advisory Committee, Colonial Bank and Trust Company."

ASH EAMES, Baker River School, Wentworth, NH 03282. "This spring I'm off to Mexico to learn Spanish with fellow students at Baker River School. Our teacher is in my writing class — bartering beats cash! The international implications of what we do are so important — witness the Peace Movement."

Wellesley, MA 02181

Here follows our first polling effort. We sent out 51 questionnaires and received back 17; we aren't sure how this compares to national polling averages, but we hope those not received are still moving into your "out" baskets.

Some lost souls: James Beaver, Allan L. Davis, William Elbow, Darwin Foster, Howard J. Foster, Dana Getchell, Rod Jennings, Philip MacInnis, John Mozzicato, Clyde Roach and James Royce. We ask that if you have information on any of these folks, please send it to us. Our next effort will include info on us and, hopefully, some of the other questionnaires we haven't received. We are not stringing this out intentionally, but our space is constrained especially when we depend on your news.

ALLEN HOLLIS, who matriculated through Harvard and Harvard Divinity School, is currently the Pastor of the Union Congregational Church in West Palm Beach, FL. Of particular note in his church activities is his creation of a Parsonage Equity Fund and his idea of finishing the church with one of the largest single stained glass windows in the U.S. In addition, he was recently elected as a director of the Florida Conference of the United Church of Christ for a three-year term. He reports he has two children and that his wife, in addition to being a homemaker, is a hospice volunteer.

BILL CHAMBERLAIN is now up in Franklin, NH, where he and his wife are co-owners of Grandad's Toy Shop, which sells the wood toys they manufacture. Bill has four children and enjoys skiing, tennis, golf, while coaching lacrosse.

PETE STATLER reports he is the manager of the Statler Ready-Mixed Concrete Company in Kalamazoo, MI, has three children and is presently divorced. He attended Middlebury for 2½ years and for a short time, 79-80, was active in politics holding the office of Vice Mayor in the City of Kalamazoo. We assume he continues to demonstrate his tennis expertise.

LEONARD JOHNSON is now living in Arlington, VA, and is the Director of the Arctic Program in the Office of Naval Research. The principal thrust of the program is promoting basic research in the arctic. Len graduated from Williams (B.A.), NYU (M.S.), and received his Doctorate in Philosophy at the University of Copenhagen. (The last degree is a best guess, since he suffers the Dr. handwriting malady!) He is married, has three children and is into farming on a small scale.

BILL JUDSON has his own realty corporation in New York City that deals with real estate and hotel management. Judi is married, has six children and spends his free time...we aren't sure how much...in sports and charity work. We understand two of his children went to GDA (ed. note: Stephen '79 and Peter '83)...we wonder how many of our classmates' children have gone there? Also in New York City and working in Judi's firm is **BILL COLLINS** who deals in commercial real estate brokerage. Bill is married and has three children. Bill graduated from Amherst College with **ASH EAMES** and **MORRIS HALE** in 1953.

JOHN VESSEY ever the sportsman, is now living in Doverhill, Ward Hill, MA (near Haverhill) and is a co-owner and Treasurer of Cedardale, Inc., a recreation center. His wife also works with him at Cedardale. He is married and has five children.

GDA '49 has produced two "men of the cloth" in **AL HOLLIS** and **DAVE FLANDERS**. Dave lives in Medfield, MA, is married with four children and is presently Rector of Church of the Advent. We presume that is an Episcopal Church, since Dave attended Episcopal Divinity School after graduation from Yale in 1953. Dave's wife teaches kindergarten and they enjoy fishing, golf, and family.

From the New Haven, CT, area **BOB COULTER** reports that after leaving Williams College, he attended Boston University, and received his MBA from Wharton. He serves as executive vice-president in charge of administration and sales for an insurance agency there. He is paying for three of his four children at college, but still enjoys life sailing and cruising. His wife is working on her masters degree, but we don't know in what area.

TOM OTIS took the time to write us a nice letter. Bashful to the core, Tom "mentions" that he is married to Mina Ellis Otis who is Director of Alumnae Affairs at Windsor School in Boston and that they have two children in their local high school. Tom is Vice President and General Counselor for Eaton and Howard, Vance, Sanders, Inc., a leading Boston investment management firm.

MANSFIELD SMITH writes from San Jose, CA, that he is presently an ear surgeon, professor at Stanford University, and editor of the *Journal of Otolaryngology* (this was also written in the handwriting of your typical physician) and *Head Neck Surgery*. All this achievement followed study at the Universities of Virginia, California, Michigan and George Washington Medical School (if not in that order). Mansfield mentions that he, his wife (who will remain unnamed) and three children sail, ski and play tennis when possible. Mansfield's wife is the Director of Education and Scientific Activities for the California Medical Association.

Moving south from San Jose, in San Diego we find **IRV GROSSMAN** has pulled

his head out of the sand trap where he lives, apparently, to say he is President and owner of a public relations company with a number of accounts promoting major sports events. In addition, Irv is owner and editor of *Inside Football Report* which is focused on NFL material distributed nationally by King Features. He mentions that, although he does not often come East, he will be involved in a golf event this June on the Cape (and your secretaries will make a formal and serious invitation for Irv to spend at least one night with them in Wellesley or Newport. Please call (617) 235-6039 for arrangements Irv.)

We also heard from **RICK TYLER**, former lacrosse great, who will be supported in retirement by four sons (a set of twins), two who have already graduated from college and a third who will this June. Rick writes that he is General Manager of a company that services heavy commercial and industrial air conditioning systems. His wife, (we forgot to design appropriate questions to solicit names of wives, of course) is founder and director of a family support center focused on abused and neglected children. The big news, of course, is that Rick skis 50-60 days a year, which must mean he has a ski chalet in Park City and that we're all invited "to pile in."

And then from Rochester we have direct word that **BUD FRAME** did in fact return to that fair city to complete his education at the University of Rochester, and is now Executive Vice-President of the Case-Hoyt Corporation. Scouting, the Chamber of Commerce, and a number of boards (Genesee Hospital, Rochester Savings Bank, etc.), keep him more than busy, if three children don't. Bud also asked who designed a questionnaire which provided no place for names. He suggested it was probably Archer desCognets and we surely have "no comment". It probably was Archer since you noticed he did not send in his. Let's hear from more of you. Remember, May 1984 will be a big reunion year for our class. We are planning to gather ourselves together as never before. Look for dates and further information.

'50

Timothy Greene, Co-class Agent
20 Thoroughbred Drive
Sherborn, MA 01770

David Yesair, Co-class Agent
6 Johnson Lane
Byfield, MA 01922

J. Richard Fischer, Class Secretary
68 Meadowbrook Road
Needham, MA 02192

PETE STEINWEDELL — "Kathy and I had a fun five-week holiday in England in '82. I have promised her a remodeled kitchen in '83, so all who pass through the Hartford area please stop in. My son David is working for Aetna in the Pension Department and has left the roost. Anne is a junior at Lake Forest College."

DICK PATTON — "In August, Lynda, Robert (age 8) and I made a bare boat

charter in Southern France and cruised a month on the Yvone River. Robert learned to drive the boat, work the locks and draw bridges. It was the best holiday I ever had. Now into my twenty-third year with National Mortgage Investors, Inc. and we have clients in 45 states. Have been CEO since 1968.

MAL DAVIDSON — is an advertising sales representative. His family visited GDA last summer. ("Messrs. Ragle et. al. have done a fine job.") Mal reports both daughters and son are on Dean's List at Purdue. Son is also co-oping with IBM in Kingston, NY.

'51

George McGregor, Class Agent
154 Lakeview Avenue
Haverhill, MA 01830

Volunteer needed for class secretary.

DICK BITTNER — "Moved from Denver to Los Angeles in March 1982, as Manager, Labor Relations in the Corporate Labor Relations Department of Atlantic Richfield. Enjoying the southern California climate but miss the Colorado skiing. Freeway commuting ranks on a par with competing in a demolition derby!"

TED BARROWS — "Recently established a new business providing total product and catalog services to companies in the award, incentive and promotional field. In addition to jewelry which I have been involved with for twenty-five years, we are into glassware, gift items, ready-to-wear and all conceivable products that companies can use to enhance their internal and external operations.

KEN BISTANY — "We are going to Tokyo, Japan for an exciting opportunity with CPC Japan, Ltd. We will be there for five years with a yearly home leave. U.S. residence is now Sarasota, FL."

REV. FRED FRANZIUS — "The high point of 1982 was buying a 35' sloop in Jacksonville, FL and sailing it back to Connecticut for refitting, restoring and refurbishing. In May, I'll sail to Bermuda, then to the Azores and Gibraltar. Then for a slow paced sail through the Balearics."

BARRY LOUGEE — Manager of Advest in Manchester, NH writes: "My five children essentially grown and gone. Keep active hiking, jogging and canoeing. My partner and I won six race series New England White Water Canoeing Championships in 1982 as well as the Atlantic States. This keeps me fairly active as most of the competition is young enough to be my offspring." Barry, also, skated in the "Old-Timers" alumni hockey game this past January.

'52

Rev. Franklin Huntress, Class Agent
Box 201, St. Stephens Church
Schuylerville, NY 12871

Frank W. Stockwell, Jr. Class Secretary
45 East 86th Street, Apt. 6J
New York, NY 10028

DONALD RICE — "Am still in the petroleum business (Rice Oil Co.) and also built a new package ice plant (Rice Ice). All five kids have graduated or are in college. Kim - graduated Columbia with Masters; Tim - graduated Colby and is working for a computer company; Susan - a registered nurse and is married to a professional baseball player; Karen - graduated from North Adams State; and Jay - a junior at Clark University.

'53

William Plumer
Class Agent
20 Alden Road
Wellesley Hills, MA 02181
Volunteer needed for class secretary.

30th
1983/REUNION

RICHARD SARGENT reports he has a new job as Deputy Manager, Chubb and Son, Inc. - International Division. "Lots of fun and challenging."

DON TRACY — "Don is still devoting much time to an expansion of the company he started and now serves as Treasurer and a Director. Seacoast Security has expanded its facilities and formed an alarm monitoring division that is now directed out of the state, encompassing New England. Don has written numerous articles for security trade magazines. At home his interests are in raising a family, the youngest being 2 years old. He and his wife, Linda, truly enjoy life on the coast of Maine."

BILL HOYT writes, "Although I still live in Buffalo, which, incidentally, is alive and well, it is on a part time basis, because since 1975 I have commuted to Albany as a member (Democratic) of the New York State Assembly. In that capacity I have tried to do as little damage as possible to the Empire State, mainly standing as a bulwark against the rapacious desires of my insatiable New York City colleagues. (Ed. note: Bill is chairman of (1) Assembly Office of State/Federal Relations and (2) Subcommittee, Water Resources and Management. He also serves on the following committees: Child Care, Corporation, and Authorities Commissions, Environmental Conservation.) Dennett Withington '55, wanders into my office sporadically, claiming to be lobbying for the farmers of the state, but his messages become oblique as we trade anecdotes with each other of our heroics of the middle 50's at South Byfield. For most of the month of August, during odd numbered years, the even years being devoted to keeping my job, I wander up to Artic Canada in pursuit of white water canoeing. This summer several of us plan to paddle the Bonnet Plume River in the Northern Yukon. Everyone should try it. Of my GDA acquaintances in Buffalo, **WEBB DANN '48** continues to teach math at the Nichols School while **TOM WENDE '55** prospers as the major domo of a local box factory."

Thomas Larsen, Class Agent
26 Quinobequin Road
Newton, MA 02162
Volunteer needed for class secretary.

'55

Volunteers needed for class agent and secretary.

Allan Keith '55 at right and **Guy Tudor '52** on an expedition to Northern Argentina to study the distribution of birds there in December 1982. Guy has become one of the United States' foremost wildlife painters and is working on a field guide to the birds of South America, the largest and most complex continental bird fauna in the world. When not on such expeditions, Keith works for Brown Brothers, Harriman & Co., in New York City.

'56

Thomas Elder, Class Agent
34 Colonial Road
Hingham, MA 02043
Vincent C. Sgarzi, Class Secretary
Box 701
Plymouth, MA 02361

Here it is the first of March and I'm just now getting to the class newsletter which I promised over a month ago...where has the time gone — for that matter, where has the past twenty-six years gone?

I am both pleased and a little disappointed at the returns from our classmates. Pleased because I have heard from ten of you and disappointed because I haven't heard from more, especially some of those who thought this was such a good idea — Tom Elder promised several times to send me information on those he contacted on the telephone, but I haven't as yet received anything...what do you expect from a soccer player? Hunt Blatchford roped me into this deal and then I never heard from him again — thanks Blatch! As Class Secretary I have assigned powers, so I am now requesting that those two gentlemen get together to organize a summer reunion someplace in the Boston area.

CHUCK DUNCAN sent me a resume of his entire life (one paragraph). After graduating from B.C., he taught and coached at Lawrence Academy. In 1968 he went to Milton Academy as a coach and Spanish teacher...a subject he never passed at GDA! He presently is the Academy's college counselor and varsity hockey coach and his teams have been very successful. He is married and has three children, one at the University of Virginia, one at Notre Dame and the youngest at

Milton Academy. Chuck also has a home in the Bahama's, if anyone is interested. Since ruining our undefeated football season, Chuck has now given up active sports and is into water color painting!

JIM HEALY was the first to respond and for that I thank him...a good lineman always does what he's told. Since graduating from Tufts, Jim has been living in Sudbury, MA and is a practicing dentist. He and his wife, Sarah, have two sons, one at Exeter and the other is in the sixth grade. His latest hobbies are sailing and fishing on Nantucket.

GORDON GAVIN MacVEAN — anyone with a middle name like that has to be successful. Gordo is now living in Pittsburgh with his wife Kate. He is Vice President of National Mine Service Co. which is listed on the N.Y.S.E. He travels a great deal to Europe and Japan. His hobbies include skeet, trap and pigeon shooting. I forgot what an athletic class we had! Gordo was extremely happy that I was not looking for money.

BILL SULLIVAN sent my letter back with a request that I send out a questionnaire. You think my job is easy, huh? I'm getting criticized for a job that Blatchford should be doing! Anyway, Bill did say he has a daughter at GDA, a son in Arizona learning to be a commercial airlines pilot and a wife who works for TWA. Bill himself works for "The State", which covers a multitude of sins. Bill, if it's the D.P.W. you work for, you did a lousy job plowing the roads this year!

BOB CONKLIN was sorry he missed the 25th reunion but did make it all the way back from Oregon to visit GDA last summer where he met up with Buster Navins and Dave Williams, Jr. Conk graduated from Dartmouth and received a J.D. from the University of California at Berkley. He went into law practice and fifteen years later changed his career to real estate investments. He's married and has two beautiful daughters, ages ten and fourteen.

GEORGE "BEEF" BOYNTON was also very disappointed that he was unable to attend the reunion. He will be in the area in June and hopefully, I'll get to talk with him. Beef lives in LaJolla, CA with his wife and two daughters, ages five and seven. His reason for such young children was that he couldn't find anyone to marry him until he was thirty-three! Beef is a mortgage banker with the First Interstate Mortgage Co. where he arranges financing for such things as industrial parks and shopping centers. His outside interests are sailing and skiing. Not a bad life for a retired shot putter!

BEN GOODSPEED, another successful offensive lineman, is living in Greenwich, CT and working in New York City for "Inferential Focus", a group which studies trends of large companies and then advises clients as to their potential. He also recently published a book called *The Two Jones Averages*. Ben has four children, ages seven to nineteen, and he will definitely make the next reunion.

JOE MacLEOD is living in Manchester, CT with his second wife and has children spread throughout the East, including a son at Norwich University. Joe is selling furniture in the New England area and plays tennis and racquetball along with being the best Cub Scout Den Leader in the East.

TONY MILLER wrote a four page letter which I couldn't unscramble. He might be successful, but he surely can't write. However, I did figure out that he really enjoyed himself at the reunion and would be very pleased to entertain any classmates who might be visiting England! I have his address if anyone is interested. He is chairman of the local sports club which features cricket and field hockey; he also plays squash. Tony has been married for twenty-one years and has a son, twenty, and a daughter, seventeen. He is also a member of the London Stock Exchange. I get the feeling that Tony would come to our next party, wherever it might be.

BUD HADLEY, my old roommate, is a regional sales manager for Johnson products. I recently visited his home in Acton, MA where he lives with his charming wife, Pat and five sons. Bud, who was once a speedy offensive threat on the "Governors", is now a robust two-hundred-fifty pound, rocking chair, beer drinker who still reads his clippings from yesteryear. I understand, however, that he has now lost twenty pounds and is preparing for a comeback with the Boston Breakers!

Well, that's all the news I have for now. I really enjoyed hearing from everyone who wrote to me, but there are many more of you to be heard from. Please keep the cards and letters coming and as soon as I have enough additional information, I'll send out another letter.

A. KING HOWE, JR. — "My work seems to dominate my life. I have been with Atlantic States Bankcard Association in Raleigh, NC since last June ('82) as Projects Management Director (ASBA services many principal and associate banks with their credit card processing for Mastercard and VISA in a five state area — NC, SC, VA, WVA and MD)."

ED ELKIN writes: "I am currently Medical Director of the PSRO Monitoring Program in the New Rochelle Regional Office of the New York State Department of Health. This program monitors the activities of the PSRO's in New York state organizations that are responsible for the utilization review function and quality assurance activities in hospitals. I am living the Hartsdale, NY with my wife Joan and two children — Elena, 9 and Joshua, 5. I am active in civic affairs as president of the Greenbrush Taxpayers Association, trying to educate and involve citizens in the educational process."

STUART SPRAGUE — continues as professor of history at Morehead State University and lists for us some of the books he has or is publishing *Frankfort: A Pictorial History*, *Kentuckians in Missouri*, *Eastern Kentucky: A Pictorial History*, plus an

edited work *Essays in Eastern Kentucky History*. He lives in Clearfield, KY.

'57

Volunteers needed for class agent and secretary.

On BSA, Troop 309 letterhead, **WINK PESCOSOLIDO** writes: "My latest love is hiking through the mountains with 15-20 scouts in tow. I've been scoutmaster for three years."

'58

Harvey Hayden, Class Agent
18 Cass Street
Exeter, NH 03833

Charles M. Carroll, Class Secretary
69 Elm Street
Camden, ME 04843

25th
1983/REUNION

This is the last issue of the Archon before our 25th Reunion on June 2-4. It promises to be a great occasion. Hope that lots of you will take the time to be there. And, I hope that out of the Reunion I'll have plenty of news to report on classmates who attended.

I've heard from **BOB KIRKWOOD** who sounds about as busy as it's possible to be. Bob has recently been appointed as Director of Government Affairs for Hewlett-Packard in San Francisco. He is also a member of a number of industry and public boards and commissions. Previous to joining H-P, he practiced law in San Francisco. He had at one time practiced law in Tokyo, as well. It sounds as if Bob is making a real contribution.

MAX BRUCE reported in from Warrenville, Illinois, where he is with a company producing tool steel. Max and Fran have 2 boys, Max IV, 10, and Greg, 6. I hope we can look forward to seeing them at the twenty-fifth.

JOE MONTGOMERY tells us he is President of Comondale Corporation and this year relocated the company headquarters to Georgetown, CT. In October, Joe was married to Celia Congdon of Darien, CT.

A word from your Class Secretary. I live in the wilds of downtown Camden, Maine with four children — John, Melany, Allison and Marcus, ages 10 - 17. Ann and I were married in 1981, merging our two families. It has been fun to double the size of one's family overnight. Since 1977, I've been slogging in the field of real estate development — Maine, New Hampshire and Florida, condominiums, office buildings and apartment buildings. An up and down kind of business — mostly down in the past year or two — but one that always seems exciting and challenging. Our family will be in South Byfield for our reunion. Hope we'll meet yours there.

'59

Dr. James Foley, Agent & Secretary
80 Woodland Street
Methuen, MA 01844

Volunteer needed for class secretary.

Got a letter from **BRIAN MARSH** who states that he's been extremely busy. Just

before Christmas he returned from a six week trip to Australia and New Zealand, followed by a visit to Ireland. Hopefully, Brian is planning on saving some time to visit GDA for our 25th Reunion!

Received information that **WALT CANNON** has been selected as one of the top seeded competition pilots for the 1983 season. As a pilot he achieved Category One status as a result of finishing in the top ten of the U. S. National Soaring Championship during the preceding three years. Congrats Walt!

Guess that I'll have to toot my own horn again. I have been appointed chief dental consultant at the Nevin's Nursing Home here in Methuen; as well as being appointed to the Medical/Dental Advisory Board. This is a 131 bed facility which up to now has never had an in-house dental program. It is my hope that we will eventually have a treatment room for all phases of dentistry! In addition I remain active in the dental program for Bridge Over Troubled Waters, a treatment center for street youth in Boston.

'60

Carl Youngman, Class Agent
84 Clements Road
Newton, MA 02158

Volunteer needed for class secretary.

DICK HENRY — "Still living in Pennsylvania, but am now an associate with CUHZA, architects and engineers in Princeton, NJ. Very challenging and rewarding work."

DON ALEXANDER reports from Hollowell, ME: "Son Philip entered kindergarten and is in his second year of Mite Ice Hockey. I had a busy year, presided over sixty-two jury trials and published a law review article questioning the operation of the civil jury system."

'61

Samuel W. Wakeman, Class Agent
255 Atlantic Avenue
Cohasset, MA 02025

Alan D. Booth, Class Secretary
2403 Evergreen Road
Toledo, OH 43606

BERT NOYES, a fuel control design engineer with General Electric is living in Newbury, MA. Sayre (Atkinson) Noyes is kept busy at home with son Daniel (7) and daughter Ruth (5).

RICHARD SNOWDON is living in Virginia and sees Pete Boynton a couple of time a year. Dick's oldest son Andrew wrestles and plays lacrosse. Dick has slowed down and spends as much time as possible with his family on their farm on the Eastern shore of Maryland.

DAVID STRINGER, Manlius, NY, reports hearing from **FRED BISSELL** the other morning, for the first time in 21 years. He is teaching tennis in Iowa, has his own school and a talented 14 year old boy who is preparing for the tour. Dave just underwent back surgery and should be up and about shortly. Dave and I won a local

member guest three years ago, so he plans to return to the golf circuit shortly.

EDGAR KAISER, JR., Vancouver, B.C., reports Kaiser Resources has not entirely escaped the problems caused by the recession. As the new owner of the Denver Broncos, he is looking forward to an improved season in 1983.

PETE BOYNTON, McLean, VA, is with a consulting firm specializing in the planning and management of educational programs. He reports that his two daughters, 10 and 12 (going on 18) are the family champs at PAC MAN. Is there anyone in the class that can beat their kids at computer games?

GEOFFREY DELLENBAUGH, Hopewell, NJ, is active in patent law with Johnson & Johnson. Their recent addition to the family, daughter Mary, brings the count to three. His wife is fast becoming a recognized sculptor while holding down the fort raising three children.

DAVID CLINTON, Wilmington, DE, is working for Dupont in the Employee Relations Department. Judy and he are kept busy raising their two boys (9 and 12).

SAM and LINDA WAKEMAN, Cohasset, MA, have two children 2½ and 1½ to complement two stepchildren 20 and 14. Sam reports life is very hectic. However, between his work as an insurance broker and father, he did find time to sail in the Bermuda Race in 1982.

JIM HUNT is teaching English and Drama at Hanover, NH High School. He sounded like the most active classmate. Married, four sons (12 - 16), doing some acting and directing (*Taming of the Shrew*), farming on a small scale, hiking, bicycling, skiing, motorcycling, coaching lacrosse and restoring old cars. I'm tired just listing all these activities.

TIM HILL is in Cambridge, MA, working as an independent film and TV producer. He's currently developing a documentary on the history of Spain and Latin America. Tim is playing hockey, trying his best at windsurfing and coaching his son's hockey team.

Lastly, I, **ALAN BOOTH**, am also still playing hockey and returned to GDA recently to play in the alumni old-timers game. Just celebrated my 15th wedding anniversary with Lorine. Our two daughters keep us both busy as they head into the teenage years. If any of you pass through Toledo, Ohio, please give me a call.

Alan Booth '61 and Ed Tarbell '44

'62

Denis Golden, Class Agent
15 Barberry Way
Gloucester, MA 01930

Stephen W. Blair, Class Secretary
2 School Street
Byfield, MA 01922

STEPHEN KASNET was recently appointed Executive Vice President-Sales for R. M. Bradley & Co., Boston, responsible for the firm's brokerage. He has been with Bradley since 1969, active in downtown Boston leasing and in suburban office and industrial parks along Route 128, and Interstates 93 and 495. He is a trustee of the Union Warren Savings Bank. He and his wife Marie-Louise and their two children live in Manchester, MA.

JIM GORDON writes: "Our first baby, Laurel Elizabeth Gordon, was born October 3, 1982, and she is absolutely beautiful. I've been a stockbroker with Dean Witter Reynolds in Freemont, CA for two years and am enjoying it immensely."

JEFF ELLIS says: "I'm looking forward to our 21st reunion this spring and hope there are more classmates there than the last biggy. Fully and I are getting tired of seeing one another!"

Steve Kasnet '62

'63

Donald Connelly,
Class Agent
14 Watson Street
Marblehead, MA 01945

Volunteer needed for class secretary.

STEPHEN WITT — "October 3, 1981, I married Sara Baals (an Indiana U. grad from Fort Wayne). Our partnership in marriage was accompanied by a partnership in her business, as I joined her Executive Search firm. Actually I had met Sara in January of that year when sent by the corporate office to assist her in opening and staffing her Fort Wayne office. (I believe I had heard something favorable about 'marrying the boss'). Now we are happily placing people with hiring companies, breeding birds (mostly cocatiels) tending our cats and dogs and looking forward to my 20th GDA reunion.

BOB MCGILVARY — "Since I will not be attending the reunion, I want to send greetings to classmates and wish you all an enjoyable day at GDA — hopefully I can arrange my travel schedule to be at the 25th or 30th reunion. My wife, Barbara, and I

20th
1983/REUNION

are both quite rooted in Vancouver, British Columbia, Canada. Our first child, Alexander Marcos, was born this past February 3 (we are late bloomers) and we are enjoying parenting very much. We are slowly fixing up an old (for Vancouver) 1905 house that we recently purchased — and we have the double professional-couple home with Barbara practicing medicine and I practicing and teaching architecture at the University of British Columbia. Vancouver is a great place to live — clean air, ocean, mountains, etc. Anyone out this way, please give a call (604/266-9548). Best regards to all."

Donald Balser, Class Agent
12 Hawkes Street
Marblehead, MA 01945

John S. Mercer, Class Secretary
167 Main Street
Amesbury, MA 01913

BRUCE FRASER has been appointed executive director of the Connecticut Humanities Council. A resident of Middletown, he joined the CHC staff as program officer in 1977 and became associate director in 1979. He graduated Trinity College in 1968 and received his PhD. in American Social History from Columbia University in 1975. Before coming to the Connecticut Humanities Council he was executive assistant to the Secretary of State of Connecticut and Coordinator of Issues and Research for the 1976 campaign of Gloria Schafter for the U.S. Senate. Bruce has taught at the University of Hartford and Western Connecticut State College. The author of several articles on public history and the humanities, he is a member of the executive committee of the Association for the Study of Connecticut History; president of the Connecticut Center for Independent Historians; past president of the Connecticut Coordinating Committee for the Promotion of History, and serves on the board of directors of the Nation Council on Public History.

Chatham, NJ 07928

Peter K. Imber, Class Secretary
15286 Sutton Street, #102
Sherman Oaks, CA 91403

JIM MCGUIRE, lawyer: "Certainly, our times, both at and after GDA, have shaped us all. We have learned a lot, and maybe that learning will help us and our children."

I have received 18 responses to the questionnaire I sent out to you last fall. This is certainly not enough to be able to claim I know now what really happened to the Class of '65, but I can make some general observations about at least a third of us.

JACK GREGG, stock broker: "We have gone to great lengths to fade into oblivion — blase right to the end."

Not surprisingly, most of us have settled down by this point into careers we can see

ourselves pursuing from here on out. Our political philosophies have tended to drift to the right with the passage of time, and our concern for our material well being has predictably increased as many of us begin to provide for our children's future.

A fair number of us have strengthened our religious ties, but the majority of us have either not altered our relationships to our faiths since leaving college or claim no allegiance whatsoever to a religion.

Nearly all of us feel a keener interest in the arts than we did when we were students.

RICH WAIT, sailmaker: *"I wake up each morning knowing that rampant stupidity is still making the world go around."*

And we are split into thirds about what we think the future holds for our lives and our planet. We are in equal numbers more optimistic, more pessimistic or feel pretty much as we did two decades ago in the subject.

I think the most interesting information I have to report concerns our present views on some of the more controversial social and political issues of the day.

JOHN MACKENZIE, educator: *"I suppose I've become more conservative (moderately so) about everything except those infamous 'first amendment freedoms'. I'm aggressively more liberal about them."*

The closest we come to unanimity is on gun control. All but one of us are in favor of some type of registration and regulation of firearms.

On abortion all but two of us support the right of a woman to make her own choice on the matter. And on the passage of the ERA we line up heavily in favor of such a measure with the exception of the same individual who is opposed to gun control and three fence straddlers.

BROCK CALLAN, investment banker: *"Certainly, we were a dichotomous group, but in the little contact I've had, it seems that most of us have gone on to careers, styles of life, etc., that are analogous to what our interests and loves were at that time. To me that represents strength and commitment, and perhaps better knowledge of self than the average male student has at age eighteen."*

On the other issues I inquired about real consensus does not exist. On the question of busing for racial balance we are tilted against the practice by a margin of two. Concerning the desirability of voluntary prayer in public schools, we are in favor of its introduction by two.

And our feelings about the Reagan presidency are equivocal. By a margin of one we support his administration.

Finally, most of us think that it is unlikely that there will be a nuclear war in our lifetime. However, a few of us see the possibility as a more ominous danger.

Conclusions? You can draw them as well as I can. Personally, I am heartened by our decisive attitudes toward gun control, abortion and the ERA. To me they indicate that

despite our differences, we may well still share a common sensibility about what we feel is reasonable and fair.

How have we changed in 18 years? Undoubtedly, in much the same way as those who came before us and those who have come after us. We, however, are, as a social commentator once wrote, the "bulge in the snake". As part of the "Baby Boom" generation, we already have made waves and continue to affect change somewhat disproportionately in this country just by our getting on with our lives. I agree with Jim McGuire that we have learned a lot. And I share his hope that it will make a difference.

SCOTT MAGRANE, corporate financier: *"I have had the opportunity over the past few years to see some of our classmates... The one truly amazing thing about each meeting is how well we know each other."*

Thanks to those of you who participated. Please continue to write with your news and your comments.

RALPH SUTTON — "continue to work at Polaroid now as a financial analyst. Building a passive solar home in Sudbury, MA."

'66

Peter Navins, Class Agent
30 Rice Spring Lane
Wayland, MA 01778

Volunteer needed for class secretary

ROY HOPE — "My wife, Solveig and I are living in Minneapolis. I am in the second year of a general surgery residency. My long range plans are to complete a transplant fellowship. I should be done with this by approximately age 40! We have four children, Sarahanne, 8, Johanna, 5, Alexandra, 4, and Jacob Henry, 22 months."

J. ANDREW LEONARD — "Managing California rock band 'Bobby and the Midnights'. Living in Los Angeles."

JOHN WHITMORE inquires: "I want to know if Ford Schumann still has his saddle shoes?!"

TIM KEENEY — "Since April 1982, I have been working as the Deputy General Counsel for the National Oceanic and Atmospheric Administration in the Department of Commerce in Washington, DC. Much of the work involved marine mammal protection, law of the sea, coastal zone management, and fisheries enforcement. If anyone is charged by a federal fisheries agent for catching undersized or out of season fish, I can't help you. My wife May is a law student at George Washington University and could find you some legal assistance at a reasonable fee."

BARRY SULLIVAN — "After almost two years (and four arguments in the United States Supreme Court) as Assistant to the Solicitor General of the United States, I have returned to the private practice of law in Chicago as a partner in the firm of Jenner and Block, where I specialize in trials and appeals in both civil and

criminal cases. Winni and I are happy to announce the birth of George Arnold Sullivan on Law Day (May 1) 1982. Despite the inauspicious beginning, we hope that he will not follow in the footsteps of both parents!"

Daniel Morgan, Class Agent
5 Berwick Lane
Worcester, MA 01602

Bennett H. Beach, Class Secretary
68 Myrtle Boulevard
Larchmont, NY 10538

BILL HAGGERTY reports he and his wife Barbara are the proud parents of a daughter born December 17, 1982. Erin Michelle tipped the scales at 6 lb. 5½ oz. She is the second child.

CARTER EVANS says he's "been traveling a bit trying to rescue International Harvester (and coincidentally Chemical Bank's load there too!)."

ROGER BLOCH married Judith O'Brien last fall, with ushering help from WIN BURT, and recently moved to Wellesley, MA.

On March 2 **CAROL** and **BEN BEACH** became the parents of Emily James Beach, a 7½ pounder. They also have a two-year-old son.

Playmakers Davis and Dix (look for Jensen underneath).

John Emerson, Class Agent
503 West Golf Road
Libertyville, IL 60488

Carl F. Spang, Jr., Class Secretary
RFD 1
Wiswall Road
Newmarket, NH 03857

JOHN WANNOP from Woodstock, VT, reports on his family: "Wendy and I have two children — Melissa, 2½, and Bobby, 13 months. Number 3 due in April."

JOSH BURNS writes: "Still practicing law in New York City. Renovating our co-op apartment in Brooklyn by myself. Look forward to seeing all '68's for 15th reunion in June."

15th
ANNIVERSARY
1983/REUNION

BOOTS BROWN — "Have been living in Sun Valley, ID for the last five years. Married two years ago, no kids. Working in ceramics and photography. Will be spending the winter photographing ski races in the U.S. and Europe for an article in a ski magazine."

'69

Peter Dorsey, Class Agent

Box 291

South Hamilton, MA 01982

Jeffrey L. Gordon, Class Secretary

35 Second Street

Newport, RI 02840

BOB AMSLER from Cheswick, PA writes: "Chaos at work. Installing IBM System/38 and IBM Manufacturing and Accounting Production Information Control System (MAPICS). Long, arduous hours of programming, testing and learning an entirely new machine. Sure beats being idle!

PHELPS HOLLOWAY — "Designing a solar heated greenhouse for an herb business; racing bicycles, building slate and tile woodstove hearths and heatshields, and the usual chimney and space heat work."

CARSON MEEHAN — "I am managing a Group Office for Crownhike Insurance Co. here in Minneapolis. I am enjoying my job and the area very much. Our two children — Nick, 5, and Erin, 3 — are growing every day. I've already taught them a number of different wrestling holds which they try out on their classmates!"

'70

Nathaniel Williams, Class Agent

213 North Evergreen

Arlington, VA 22203

William B. Tobey, Class Secretary

375 Union Street

Springfield, MA 01105

I hope you all received my March letter requesting news and updates. Tremendous thanks to those folks who responded so promptly and elaborately, reporting some very interesting pursuits! I didn't mean to give you such short notice for returning the postcards; if I don't squeeze you in this issue, the news will be reported in the next. If you haven't been informed, all news should be sent to me, currently serving as "Class Secretary" for the Class Notes. I'll write up everything you send, whether or not it may have appeared in a past issue.

WILLY WHITEHOUSE reports that he only has two jobs, (in contrast to my three, I guess) which keep him going. One is his present employment as a juvenile probation counselor, prior to which he worked as an investigator in the area of child abuse. His second "job" is "being a husband to a smashing brunette and a father to two hell-raising, but loveable boys: Hugh (5) and Ben (3)." He adds that although he would love to contribute to GDA fund-raising by sponsoring the "Will Whitehouse Memorial Particle Accelerator, Buddy," he says, "I'm broke!" Maybe we can set up a Willy Whitehouse relief fund instead...?

DAVID STEWART-SMITH, of the old Ambrose House crowd, reports that he is living in Narragansett, RI and running a musical production company with a recording studio and performance production team for traditional and acoustic music. Previously, he was employed as a news editor and worked for the Warwick Beacon in Rhode Island until last year. Summers, he works as Director of Restoration at Mystery Hill, "America's Stonehenge", a prehistoric site in North Salem, New Hampshire. He still plays the bagpipes and lived in Scotland for 8 years. Back in 1970, before Scotland, David studied music in India. He has a son, Brendan Wentworth Strickland-Smith, by his partner, Judith Strickland of Wakefield, RI. Judith is a graduate of Goddard College and is a counselor for disadvantaged teenage girls at the Sophia Little Home in Cranston, RI. His father, Wentworth Smith (GDA '34), passed away in 1978. Nice to hear from you Dave.

NAT WILLIAMS is getting married on June 11th to Annette Neigh of Butler, PA and they have bought a house in Arlington, VA. He is presently the Director of Government Relations for the Nature Conservancy, an organization which lobbies Congress for land conservation. In Washington for 4 years now, Nat originally went there to work for Illinois Congressman Abner Mikia. Annette is an account executive for Mead Data Control which markets computer information systems like Lexis (used by lawyers) and Nexis. She and Nat love Washington and look forward to the action of the '84 campaign.

A majority of **TOM TURNER'S** time is spent helping his wife Priscilla, to raise their 19 month old son, John Cameron Turner. Tom has a Masters in Educational Counseling and in his seventh year of teaching in an elementary school in Vancouver, WA. Priscilla is at home after a long stint with the First Interstate Bank of Oregon. With her interest in Spanish, she and Tom hope to have John conversing in Spanish at an early age. Tom and Priscilla continue to enjoy outdoor sports and hiking in the Northwest. In particular, Tom has managed to float many of the rivers of Oregon and kayaks as often as possible. He would love to hear from fellow classmates and invites all who pass through Portland to pay him a visit. Tom asks: "SCOTT BRACE, where are you?"

We remember that **GEORGE WAGNER** received his Master of Architecture degree in 1980 from the University of Washington and since then has worked in a variety of firms in New York City. This past September, he moved to Providence to accept the position of "Visiting Critic" in Architecture at the Rhode Island School of Design. Additionally, he's been doing some freelance work, including a recently completed apartment on East 70th Street in NYC.

JEFF BROWN wrote in recently to keep us posted on his "most recent milestones." He and Patti were married last August and

JACK CUTLER served as his best man. Jeff and Patti expect their first child in July. Jeff is now practicing law in Charleston, West Virginia after receiving his J. D. from Boston University, and would like to ponder the fact that his "practice is getting into full swing with the help of a poor economy." Sounds like a lawyer talking... Jeff's frequent escapes include rock climbing trips to Seneca Rocks and the Shawangunks in New York state, and cross-country skiing in West Virginia and New Hampshire, and a bit of downhill skiing in Colorado. Occasional mountaineering trips allow him to combine these skills in more remote places like Alaska and Italy. Over the years, Jeff has crossed paths with several of the 1970 rabble rousers including JEB BRADLEY, MAC SMITH, HENRY EATON, JAY JAMES, RICH WELCH, and of course, JACK CUTLER. He's also bumped into JEFF MULLIGAN and CHRIS SWENSON. He closes: "West Virginia may not be the crossroads of humanity, but I get around."

GUY SWENSON reports that he's still living in Syracuse after one year and working as a groundwater geologist. He's involved with investigating hazardous waste sites, developing groundwater supplies for towns and various other jobs in the groundwater field. In his profession, expensive electronic equipment has replaced divining rods, Guy says, but it's probably all the same to everyone else. His wife, Gayle Scroggs, from California via New Hampshire, is taking a 2 year break from teaching psychology at St. Lawrence University. I presume to help with caring for their 2 year old daughter. Their two year old is beginning to master the art of expository speech, and keeping the old folks entertained. Guy heard from BARKELY SIMPSON last Fall, learning that he was doing well in San Antonio, Texas with a wife and child and a job with a computer firm.

Finally, **MICHAEL O'LEARY** updates with a bit of news: "I completed my general surgical training at Tufts and am now a senior resident in urologic surgery at Massachusetts General Hospital where I'll be for 3 more years." He hopes to remain in academics. This September, he's "going to take the big plunge" and get married to Kathleen Welch (U. Vm '74, M.D. '80 U. Mass., MPH '80 Harvard.) Kathleen is an anaesthesiologist and fellow in cardiac anaesthesia at Harvard Medical School and at Brigham's Women's Hospital. Best to you, Michael and Kathleen.

Well, that's all the news I have for now — maybe more will be added by the Alumni/Development Office. I just returned from a week visit with family in California (Stanford area) and managed to get in some fine powder skiing in the Tahoe region where they boasted a conservative 26-foot base — incredible! It was still snowing when we left and on the coast, the California sun seemed to be eclipsed permanently by black rain clouds. It was reassuring, as a New Englander, to know that even Silicone Valley can't escape God's wrath. Hope that some of us will get

together this Spring. Keep those cards coming.

FRED STATLER writes "Celeste and I took up scuba diving two years ago so much of our vacation time is spent diving in the Great Lakes or in the warm waters of the Caribbean."

Ted Northrup '71 and Guy Swenson '71 with Dick Leavitt in Syracuse.

FRANK CHASE — "Working at Bank of New England, promoted to officer in November '82, commercial lender for small businesses. Living in Hamilton with wife Susan, Pingree alumna class of '73, and son Joshua, class of '98. Looking forward to class reunion of sorts to take place this coming summer at the wedding of Nat Williams in Washington, D.C."

TAD RICH writes "After 2 years as a wine consultant for a 300 year old German winery, marketing wines in Southern California, I have now taken over as the distribution manager for the area stretching from San Diego up to Santa Barbara. We currently have sales in excess of \$80,000 per week that I must see gets to the customer. I'm single and living in the San Fernando valley, home of the notorious Valley Girl!"

ROBERT LIGHTON — "I am owner of my own business, British Khaki, importing mens and ladies clothing from India and Hong Kong. I am travelling almost continuously making four trips a year around the world. The business is in its fourth year now and still growing."

'71

Barry Burlingham, Co-class Agent and Class Secretary
93 Argilla Road
Ipswich, MA 01938
Michael Hoover, Co-class Agent
169 East 78th Street
No. 3B
New York, New York 10021

BARY BURLINGHAM ran into **KEN GILMAN** coming up from Miami on the plane at Christmas and into **BILL FROST** '72 going back down. Small world department. "All's well in Miami," reports Barry.

RUSSELL COHEN and his wife Rachel, are expecting their second child in June.

CHIP McCLURE — "After 4 years in the Navy, I and my wife, Sarah, have spent the last 3½ years in Michigan. I am currently a truck sales engineer with Ford Motor Co. and Sarah is an Account Executive with Merrill Lynch. Both of us attend the University of Michigan at night — working toward our MBA's. This occupies most of

our free time. That's all for this long overdue message from the motor city."

JIM PINFOLD — "Still not married, still no intention. Bought a record store with a former employer and we're now the biggest record store in Portland, Maine. We specialize in rock and roll and jazz with touches of reggae, rhythm and blues and country western. If anyone knows the difference between Gary Coleman and Ornette Coleman or Oliver Lake and Greg Lake, please don't hesitate to visit. I always have a spare bedroom in our house on the island."

WILLY PHIPPEN — "When it is not snowing too hard I am working in a small orchard of antique apples and pear varieties pruning the fruit trees and also making kitchen cabinets for a small enterprise."

JOHN CAPRON — "The next time any of you are in the San Francisco Bay area be sure to check the entertainment section of the Sunday paper to find out where John and Bubba (alias John Capron and his wife, Liane) are performing. They have graced the stage for a little over a year now with their spirited blend of song, comedy and tap-dancing (Bubba does the dancing). Just recently they were invited to play at a high-society gathering near Silicon Valley where they sang their own version of *Sixteen Tons* for the old pea-picker himself, Tennessee Ernie Ford, who promptly left the room."

SCOTT SEAVER — "Still working at Panache in Cambridge. Will be working on Bay State, Spray, P-town cruiser bartending again this summer."

JOSEPH R. LAPAGLIA — "Recently relocated to Florida as financial manager for Amax Chemical Corp., where I'm enjoying the weather and my daughter, Christina. Playing a lot of 3-on-3 half court basketball. Open invitation to anyone visiting Tampa/Orlando (we're at 126 Oak Square South, Lakeland, FL at 813-646-0371)."

John & Bubba — alias John '71 and Liane Capron

'72

Brian Lenane, Class Agent
51 Washington Street
Topsfield, MA 01983

Volunteer needed for class secretary.

PHIL ZENNER — "Selling Apple computers and software for Micro Works, Inc. in Naples, FL. Always go flying whenever I get a chance. Hit the beach on sunny days — listen to stereo on dingy days!"

ROBERT TODD was married July 3, 1982 to Eleanor Galanis of Ipswich and is attending Cornell Law School.

CHRIS SWENSON — "I've done some commercials for Sea Galley Restaurants 'Crablegs'. They've been shown around the country in various states. Crazy good money that make ends meet for an artist type, who's now practically sold out. My partner, Helen Walkley and I have just completed two northwest tours and are arranging for a New England tour in the fall of '83. GDA will be a sure stop. Can't wait to return for a few months to see some old haunts. Have been working alot with improvisation lately. It sounds flakey but there is, in fact, a good deal of magic in it. Saw **GUS SELKE** with his two beautiful Afghans. What a character!"

BOB BILLEWICZ has been named Vice President of Southern National Banks in Tumberton, NC. Bob has a law degree from Suffolk University and is a member of the American and Massachusetts Bar Associations.

'73

Carey Doyle, Class Agent

Tulsa, OK 74152

Deborah (Eames) McClement, Class Secretary
8 Lester Court
East Northport, NY 11731

Thanks so much to all of you (or your spouses) who took the time to write. For those of you who didn't, don't worry — I'll be in touch!

After completing his studies at Tufts, **JUAN CARRIZOSA** returned to Columbia to work in his family's stock brokerage house. In August, Juan and two friends formed a partnership as members of the Bogota. He foresees a trip to GDA this spring for the reunion.

WYATT (Paco) GARFIELD writes that he is now living in Portland, Maine. He was married in June; and he and his wife, Rachel, are now operating their own Pier I Imports. Before settling in Maine, Paco lived in Massachusetts, Rhode Island, Connecticut, Montana and California. He and Rachel also took a four month trip to Central America in a VW camper. He's looking forward to a good turnout at our tenth reunion.

One month after receiving his MBA (May, 1979) from Notre Dame and returning to his hometown, Managua, Nicaragua, **ROBERTO ARGUELLO**, along with brothers Alfredo ('75) and Renaldo ('75) and family had to leave as the Communists took over their country. Roberto then began working for Northern Trust Company of Chicago, transferring in 1980 to the

10th
1983/REUNION

Northern Trust Bank of Florida. He is currently an International Banking Officer in charge of the Caribbean and several Latin American countries. He and his wife, Maria, are now living in Miami.

GEOFF PETERS started the New Year in a new position — Project Manager/Operations Analyst for Kraft, Inc. He and his wife, Kristin, are currently living in Evanston, Illinois and encourage former GDA people to drop by for a visit when in the area. He's looking forward to the reunion.

MIKE McDOWELL wrote that the ten years since graduation from GDA have been good ones. He and his wife, Maureen, established McDowell Construction, and "seem to be on the pathway to success".

"GDA is a long way away and not just geographically..." writes **MIKE BALF**. He's been living at Kibbutz Maagan Michael for 4½ years with his wife Rachel and infant daughter Timna, and farming bananas. He invites classmates in the area to drop in — he's a five minute stroll from the Mediterranean!

CHUCK HOLLEMAN and his wife, Pam (Smith), both hold Master Degrees from the University of Chicago — he in Business Administration, she in Political Philosophy. This past fall, Chuck was promoted within the Olin Corporation to the Corporate Development Group, where he analyzes acquisition candidates. The Hollemans recently bought a Condo and moved to Norwalk, CT.

A long letter arrived from **CORINNE BOSCH DUFFY** who is living in Halifax, Nova Scotia with her husband, Jack, daughter Kathryn Elizabeth (2 years old), and infant son, Joseph James. While she enjoys her job of parenting, she was looking forward in January to returning to her job in the "real world" — teaching the Business Administration Department at Mount Saint Vincent University. She, too, welcomes visitors.

Following graduation from RIT, **TOM BERNTSEN** established his own photography business in NYC, specializing in interiors/architecture/home furnishings. This fall he and Marty (Grauly) celebrated the birth of their first child, Alexander.

TOM BELL is now employed with Peoples Drug Company in Annandale, Virginia. Last summer he married Ann Shield, a fellow pharmacist. Tom also is looking forward to Alumni Day.

While his family still runs the ice cream business, **DOUG POPE'S** primary responsibility is to run Pope Housing, Inc. which leases mobile homes for emergency housing when families are displaced due to natural disasters. He married the former Carla Crimmin and they have two sons, David MacGregor (3 years old) and Charles Gunar (1½ years old), who they find to be a great joy. They're currently living in Weymouth but hope to move towards the north shore soon. Doug sends his "Hello" to the Class of '73 and hopes to see them all at the reunion.

CAROL SALLOWAY is currently Director of Student Services at Tufts Veterinary School in Boston where she has worked

Mike Hoovey '71, Lee Peterson '74 and Buck O'Leary '73 in New York.

since her graduation from Simmons College. From her letter — "It will be great to see our classmates and hear their stories in person at our reunion."

When he's not working at Dialcom, Inc. (division of ITT) as manager of the Systems Programming Group, **CRAIG LAUB** has been skiing, bicycling, scuba diving, caving, and sampling sky-diving (once, which was enough!). He is currently living in Silver Springs, Maryland.

A Brief note arrived from **JEFF HAAREN** who has been employed by Hess Oil for the past three years, and is living in the Rumson, NJ area. He is definitely planning to try to get to our tenth reunion.

LARRY JONES can now be removed from the missing list — He's living in Ludlow, Vermont with his wife Kathy (Ouellette) and children Althea Kaki and Lawrence Lakin Jones, IV. Following two years in the west (Utah, Washington and Oregon) as service representative servicing equipment used to groom ski areas, Larry started work in November as Maintenance Supervisor at Okeno Mountain. The family plans to stay in Ludlow for awhile — they love it there!

BRONSON GODDARD writes that he is a video consultant in Boston.

DORCIE (Barry) BAEZ — "I am still in the Army and will be living in Heidelberg, Germany for another year and ½ at ODCSI. My daughter Jennifer Daine was 5 years old in September and I was remarried in June to Luis Baez. I hope to make it to the reunion in June and it will be great to see everyone again. If anyone is in the Heidelberg area, would love to have you drop in."

DAVID GOLDBAUM — "I am still living in Haverhill, MA where I own part of a small realty company. Presently I spend most of my time rehabing a 150 year old house which was once an inn and is now in bad need of attention. Occasionally hear from **JUAN CARRISOZA** who is living in Bogota Columbia and recently started his own business.

ADOLF HAFFENREFFER — "My wife Lisa, daughter Lindley and myself are expecting our 2nd child in March. Looking forward to 10th reunion!"

ELIHU HERSHFIELD — "I'm still living in New York and working as a package designer for Clairol. Over the summer, I visited England and France."

GLEN WINKEL — "Academically, I'm in my 4th year at University of California, San

Francisco in the Ph.D. program in anatomy. I've got my qualifying orals in a few weeks, then provided I pass, I've probably got 1-2 years of research yet to do. I began bicycle racing in 1981 and in one season advanced from Class 4 to National class 1/2. Then in 1982, I did so well that I got a ride to the Coors International Classic in Colorado, the National Sports Festival in Indianapolis and the National Championships in Milwaukee! I was nominated for Most Improved Rider in North California in '81 and '82 and was 2nd in the Prestige Road Trophy Competition for '82. See you at the 10th."

'74

David Williams, Class Agent
19 Pratt Street
Providence, RI 02906

Jonathan B. Sendor, Class Secretary
3231 North Seminary Street
Chicago, IL 60657

It's hard to believe that nine years have already gone by since we graduated. Before we know it, we'll be returning to Byfield for our 10th year reunion. I encourage you to send to me or the Alumni Office an up-to-date home and business address to ensure that you receive all reunion and all other Academy related information.

FRAN BURKE took time out from his busy day at First National Bank of Boston to give me a call. He is working in the foreign exchange department, trading French francs.

The following people even though they are pursuing totally different careers, all have one thing in common — marriage. **ED CERIER** will be getting married this fall. After spending three years in publishing, Ed is back in school, getting his MBA in marketing from NYU.

WHITNEY SCHMIDT was married to Carol Anne Bassette of Boxford last November. Whit has joined the New York law firm of Davis Polk and Wardwell having completed a judicial clerkship in Washington, DC.

JACK GIBBONS is spending his post GDA years living "Down Maine". "Gibby" writes that he is married, has a son Ryan with a second child on the way, and has just bought a house in Yarmouth. Following his completion of a business degree from the University of Southern Maine, Jack joined the Maine Savings Bank. Should anyone need a loan, just give Jack a call.

Alumni Squad

Moving onto the Big Apple, **LEE PETERSON** is getting married on May 21st. Lee has spent the past year working for Petry Television, selling network advertising time. Any takers? Lee is also thinking of writing a book entitled, "How to live in 100 square feet or less." For those of you who are planning to move to NYC this book will be a must.

WOOLIE WOOLSON initiated the married movement in October 1981. Both Lee and I were able to attend. The Woolson's are living on a farm in Westmoreland, NH where they have the dubious distinction of providing a home for a beaver family. When not contending with his "new home", Woolie manages two building supply stores (Keene and Concord, NH).

As for your secretary, I'm joining the married contingent Memorial Day Weekend. Needless to say, Chicago winters should be a little warmer from now on!! After two years in sales at AT&T Long Lines, I decided to see how the other half lives and joined the operations side of the business.

MARK MYERS was married to Tamar Kolar in August 1981. They became parents of a son, Oren, on December 14, 1981. They live and work at Kibbutz Maagan Michael in Israel.

JEFF BEACH — "My wife, Nancy, and I are living in the rural NH hills of South Conway. I'm currently a forester for a private real estate company and Nancy is in advertising and public relations for the Scottish Lion Inn and mail order catalogue."

MARK HUGHES — "On the 4th of September 1982 Wendy Anne Binks and myself were married at Holy Trinity, Stratford Upon Avon. We have just come back from a delayed honeymoon in Miami. Wendy is a teacher (6 year olds) in Stratford and I continue my career as a CPA."

JIM LEIGHTON — "Still going to school part time, finished my Master of Science in

Electrical Engineering last spring. Have decided to take at least a year off before taking any more classes."

WILLIAM RUDOW — "I am a Senior Engineer in the Human Factors Engineering Department at GTE. I have also started a film production company which produced an award winning film. I am looking forward to seeing GDA again."

'75

Richard O'Leary, Co-class Agent
321 East 83rd St., No. 4C
New York, NY 10028

Fiona (Harris) Lubbock, Co-class Agent
108 McTaggart Drive
Beckley, WV 25801

Volunteer needed for class secretary.

P. WHEELER GEMMER is living in Mexico City, working for the First National Bank of Boston, for the next two years.

DAVID BOHMAN is chief news correspondent for WPTZ-TV Burlington, VT 6 and 11 PM news, in charge of all field reporting.

LISA VAUGHTER — "Just recently received my license as a Licensed Practical Nurse. School is going well and I'll finish this summer and take my R.N. boards. The best news is I'm finally joining middle America — getting married next October to a wonderful guy! (of course!)."

'76

Nina Chiara, Class Agent
171 East 89th Street, 14D
New York, NY 10021

Carol-Ann Goldberg, Class Secretary
17 Gibb Street, #3
Brookline, MA 02146

HAYWARD ADAMS writes that he and **DEBORAH POPE '74** will be married on July 9th.

SARA (DAVIDSON) GARCIA — "In October, I was married to Jean-Pierre Garcia. We are currently living in Houston where we both are employed with interna-

tional banks. We hope to move back toward the east in the next year or so. We are both enrolled in the University of St. Thomas MBA program. We also do volunteer work for the blind and hold English conversational classes for Chinese scholars studying here in Houston."

MARC WEINSHEL — "Currently living and working in Manhattan. Working for a women's ready-to-wear manufacturer, Point, Inc. as a sales rep."

Joseph Pietrafesa, Class Agent
1254 James Street
Syracuse, NY 13203

Tracie (Ackerman) Fornaro, Class Secretary
77 Union Bridge Road
Duxbury, MA 02332

HUW JONES — "I am now at Brandeis University in Waltham, MA as part of the staff. Any GDA people in the area give me a call at the Department of Biochemistry. Once in a while **JACK LU** and I hit the bars and we'd love some company! I'm also looking into grad school, but for now I'm a working man, and loving it."

PERRIN LONG — "I am presently working at Commanclais Palace Restaurant in New Orleans, LA as Sous Chef."

DOUG CAWLEY — "Am attempting to become a working musician. I'm writing music and playing guitar in 'The Pointless Army', a new wave dance band."

'78

Jody Baum, Class Agent
2 Morningside Drive
Swampscott, MA 01907

Volunteer needed for class secretary

SCOTT POPE — "I'll be attending the reunion in June. I am getting married in September on the 24th. The wedding will be in Kansas City, and from there, we shall be going to Bermuda for our honeymoon. My bride's name is Ann Spencer. In March I will be working for my father. I graduated from U.N.H. last December. Looking forward to seeing you."

STEPHANIE (CHETSAS) STODDARD — "I finished up Goucher College last May, graduating with two degrees, one in Theatre and one Psychology. I am pursuing a Master Degree at Fordham University in Psychiatric Social Work and hope to work in family therapy in a hospital setting. I married William Stoddard in August. He is a stationery engineer at the Metropolitan Hospital. I love New York City and would love to hear from anyone passing through!"

BRAD CLARK — "I'm getting a look from the other side as an intern at GDA. Also learning to appreciate how former teachers and coaches of mine have managed to retain their sanity over the years. I plan to be attending grad school in the fall of '83 at Chicago or Virginia."

TOM MATHEWS — "Graduated from Trinity with a B.S. in Economics and Psychology. At present, I am at the University of Michigan working on a MBA."

With the winter of 1983 now part of history, it's a little hard to believe that only four years ago we were the senior class of GDA, and despite the many promises at graduation to "keep in touch", our lives have surely gone in many directions since then.

From London (in the eastern direction from where I am) writes **BARBARA RIGGS** with news of her graduation and combined honors degrees in English-American Arts from Exeter University. She is well, happy and earning a living in London, along with being eager for news from the States.

LISA SAPUPPO, in the north country of Canada where in the cold weather she impatiently awaits her graduation, feels that her educational experiences in a foreign country have been educational in many ways.

Also north of me, **JEFF GARNETT** is busy with job interviews, lacrosse practice (Bates is going to be awesome, or so I'm told), and waiting for graduation while **TROY DAGRES** is, of course, playing baseball for Colby and has a dual major in Business and Spanish.

Looking southward, **STEVE JUDSON** will graduate from BU's School of Music in May. Last spring he was appointed as the Assistant to the Music Director of the Boston Symphony Orchestra — a job that takes him on tour with the Orchestra and to Tanglewood for the summers. **H. ROSEN**, an economics major at Tufts, has applied to law school for the fall and is still waiting to hear from his top two choices before he decides where to go, if he doesn't go to Israel for the year. After 3½ years at Ithaca College, **DOUG CAMPBELL** graduated as a Politics Major and has returned to New Jersey where he hopes to work this summer with Merrill Lynch.

While I was at Carroll Reed's in North Conway, one of our lost classmates happened to wander in. **DAVID "SMITTY" SMITH** is alive and well, living (for the past three years) in Maryland, and doing "this and that".

HOLLY BAUM — "I am a senior at Colby-Sawyer College in New London, NH. I will be graduating in May. While attending Colby-Sawyer I was a student counselor, made Dean's List and National Dean's List. I am presently doing an internship at Boston Children's Hospital as an activity therapist."

JIM MILLER is back at Oberlin finishing a degree in English and history, doing lots of work in the theatre and teaching a course on Brecht and epic theatre after spending his junior year in England at the U. of Lancaster. Over spring break, Jim hooked up with **IAN FITCH**, who was spending his

junior year at the University of Salzburg, and together they covered much of Europe.

HAL SIZER — "I'm attending Connecticut College in New London and playing on the lacrosse team there."

KATHY COFFIN — "After graduation in May, I will be starting work for MIT's Department of Psychology and Brain Science as a member of the Neuropsychology research group. (This involves testing people with brain dysfunctions — which I've found fascinating the last two summers.) Shortly after starting my job I will be taking a 5 week leave to travel to Japan, Singapore, Thailand and China. (Three weeks of the trip will be in China.) And, as if that's not enough to keep me busy, next year I'll also be planning my wedding."

TIM HEFFRON — "I am on a one year leave of absence from Tulane to work for L. K. Comstock Engineering in California. I have gained invaluable practical experience from this assignment and plan to finish my engineering degree next year at Tulane or San Francisco State University. P.S. — The skiing is great at Lake Tahoe this year!"

And wedding bells are starting to ring for our classmates. Though I've heard a bunch of rumors, I am only able to confirm two for the time being, and it appears that 1984 may be a big year. **JIM RONAN**, the Holy Cross woman chaser, has ended his chase and plans to marry Ann Marie Lynch (Holy Cross '84) in June of '84. Jim also plans to attend Harvard Law School in September of '83. And **WENDY BIXBY** is also ready for the big step. She will, however, first graduate from Bentley College next January.

As a part-time student, **LAURA ROOME** is back at New Hampshire College, and plans to graduate in May. Her time away from school has proved to be extremely educational and is now busy enjoying the "easy life" while looking for a job.

'80

Abner Mason, Class Agent
Jordan W22, Harvard University
Cambridge, MA 02138

Volunteer needed for class secretary.

After spending the last two years as a professional photographer **TED HALL** has left his Manhattan studio and is back in Newton taking a few courses in Cambridge and deciding on the next step.

PETER DIAMOND transferred to U. Colorado in Boulder from Rochester, is pre-law and enjoying the great outdoors.

RUSS SAVRANN — "Still a damn Yankee after three years in Atlanta. I'm attending Emory U. and work on the Historical Preservation survey team that decides which structures and neighborhoods are to be demolished or saved when the M.A.T.A. trains are built. To **ERIC WICANDER** — when you were in FDR, I was in KPH — I found **ARMEN PISCHDOTCHIAN** near Malaga with an actress — next time we meet in ZUG like in sophomore year. I will be working and

riding horses in Jackson Hole, Wyoming this summer. C'mon out. I still can't talk like John Fain even when I try."

PAM KURTZ — "I'm going to school in London for the spring — it will be a change from Middlebury."

JONATHAN WELCH — "Have been taking many Liberal Arts courses — such as Sociology and Russia (literature, that is!). Have declared Astronomy as a major. I got to take classes at U. Mass and Smith this year because it is a 5-college department. When not in class, I help operate the school's VAX computer (which means when something goes wrong at 2 AM you get called to come fix it). For fun, a few friends have organized a film society and hope to be showing one during January inter-term."

'81

Daniel C. Cross, Agent & Secretary
31 McAlister Drive, Box 1354
New Orleans, LA 70118
Home: 2950 University Terrace, NW
Washington, DC 20016

PAUL CARTER — "I'm having a great time here at Wittenberg University. I'm an RA on my hall. I also work in the Admissions Office giving tours and traveling around presenting college fairs to prospective students in Ohio, Kentucky, and Indiana. I still love to hear from my classmates!"

CLARISSA DANE — "Just moved to an apartment in Ithaca, NY. Dancing with the Dance Co. and am in the spring production of 'Pippin'. (Still going to I.C..)"

SERGIO OBADIA — "Here at the U. of Richmond all goes well. Planning on an economics/math (computers) major. Grades are better now than they were then, but still having a good time. I also plan to be there in the spring."

CLARE PUTNAM — "I'm enjoying my second year at Lafayette. I'm keeping very busy with my sorority, Alpha Gamma Delta. And, Mr. Abu, I'm running this year — cross country, winter AND spring track!"

BARBARA SHEFFERT — "Have been very busy as a member of the dormitories' food committee and various recreational sports. I am now experiencing the ultimate Rice experience of having thousands of birds using the campus's many trees as an overnight roosting area before they move up north in the spring. Hello to the Class of 1981."

JOANNE LEARY — "I recently became a sister at Alpha Chi Omega at U.N.H. School is going well. I hope to see a large turn out from the class of '81 at the spring reunion — especially the ones whom I only see at this time."

KELLER LAROS — "Now a sophomore at Lewis and Clark College in Portland, Oregon where I'm a political science major and social committee chairman in Sigma Phi Epsilon, where **DAVE BROWN** is also a brother. In two years my giving record has been 100% and I still have yet to make it to

an Alumni cocktail party...with any luck at all I hope to rectify that in '83. Best wishes to Bufo, Andy, Micky, Chris, Red, EOB, Swilly, Breed and Auggie."

JORDON VOELKER — entered MIT January 31st for robotics program from electrical engineering program at SUNY-Alfred, NY.

SUSAN DESAUTEL, at U Mass Amherst, says she plans to be in Taiwan in June and then onto Peking in September. "Yes, Chinese is my major and I'm really enjoying it!"

The class hears that **TED PARIGIAN** is now at Northeastern University, a sophomore majoring in chemical engineering, and on the Dean's List of Studies.

BENAY LAZO plans to major in International Relations at Wellseley. "Had a fabulous three-week vacation in Israel and Egypt - it was incredible!"

"The semester has gone well here at American University," says **SUSAN PERRY**, "although I plan to return to Colby next fall. Soaked up the sun at Sanibel Island over March break and should be back in New England by early May. "Susan, **RADAR**, **DABNEY FRIEND** and **SARAH SULLIVAN** have enjoyed a few daiquiris at Mr. Smith's in Georgetown on several occasions during the past months: "We toasted to everyone's health!"

'82

Mark Nichols, Class Agent
Wing Hall, Room 421
University of Vermont
Burlington, VT 05401

Erica S. Norton, Class Secretary
Bates College, Box 543
Lewiston, ME 04240

HOWARE MOORE is taking a year off in England and is planning a trip to France and Germany with **BRANDON CLARK** in April. Howard is working in a hotel in the Cotswolds.

ANN ROONEY — "I'm enjoying Dartmouth very much. My classes are interesting and I'm doing reasonably well. I'm not running on the track team this winter, but I lettered in cross-country this fall, and I'm looking forward to the spring track season. I hope the GDA women's ski team is having a good season this year. Go get Pingree!"

HEATHER VICKERS — "Believe it or not, 1982's class flirt is not only surviving but also having an excellent time at an all women's college. I went from last summer's sailing the rolling waves of Marblehead to riding the bouncing backs of Mount Holyoke's horses. With the help of Dan Geffin's mother, Dr. Geffin, I managed to spend winter term in a cardiovascular lab at Mass. General Hospital (Keep those GDA connections!) This summer I hope to see everybody for a "get-together" at Heather's!"

In Maine, both **JILL DEMERI** and **DAVE SCHWARTZ** are playing varsity lacrosse for Bowdoin. And in Pennsylvania, at Gettysburg College, **BOB LOW** has been seen

"running faster than a speeding bullet" down their lax field! Believe it or not, an alumni of GDA is on an European lacrosse team! **WILL FRIEND** has been playing on a casual London team while working in the United Kingdom. He is presently traveling to Ireland, France, Spain, Italy, Austria, Switzerland and Germany. He will be returning to Hamilton in June.

Other modes of exercising for the class of '82 include swimming. **PAULA VEALE** was swimming for Sweet Briar in Virginia. **KIM NEWBY** has been taking scuba lessons at Conn. College.

CHRIS SWENSON was playing the drums for a band at Plymouth State for awhile, but has now devoted most of his time to pledging a fraternity. At Bowdoin, **JILL "PRETENDER'S" DEMERI** became Chrissie Hynes for an evening during winter week-end. **KRIGGY** was in the UVM presentation of "Pippin".

ALISON MILLER is still swinging with her sorority and has also become an advertising agent for the Northwestern school paper. **TRINA CHIARA** has arranged an internship at a radio station this summer.

CLAIRE DOBER sends a "hello" from Brown, along with a smile. **DAN GEFFIN** was seen visiting **CHUCK BARRETT** in Gloucester recently. They both like college.

Please keep your mailing address up to date at the Alumni Office.

Please send along your changes.

Thank You!

Addendum to the "Families of GDA"

The response to our story and listing of the "Families of Governor Dummer Academy" has been excellent. People have told us they enjoyed reading about the relationships of our families, and others have written the Alumni Office telling of our omissions. In some cases, we missed entire families, in others we omitted a father, son or daughter. Once again we apologize for those errors and thank you for letting us know. In the following list, the names we omitted are printed in bold capitals.

BABCOCK	DANA '40, DANA, JR. '68 (father & son)
BOSCH	CAROL '73, Carl '74, Kenneth '76 (sister & brother)
CAVANAGH	Alden '75, Sarah '77, Bradford '79, PETER '80 (brothers & sister)
CONNOLLY	James '34, James, Jr. '66, WILLIAM '72 (father & sons)
DUNFEY	DAVID '70, STEPHEN '75 (brothers)
FRIEND	Mirick '59 (uncle), Jonathan '79, Elizabeth '81, (brother & sister) CHRISTOPHER FRIEND SWENSON '82 (nephew)
HAACK	ANDREW '85, MATTHEW '85 (brothers)
HAGAN	THOMAS '73, JOHN '75 (brothers)
HATHEWAY	EDWIN R. between 1809-1819, EDWIN R. JR. '36, Nicholas '35, Nicholas, Jr. '56, EDWIN R., III '70 (brothers, fathers & sons)
HOSMER	RICHARD '30, JOHN '33 (brothers)
JAMESON	ARTHUR C. '38, BENJAMIN '62 (father & son)
JOHNSON	WARREN '33, MARK '62 (father & son)
LATHAM	DAVID A. '59, RONALD B. '70 (brothers)
MILES	FRED '48, K. DODD '54 (brothers)
PERKINS	HARRY '01, RALPH '67 (grandfather, grandson)
POTTER	J. RUSSELL '37, J. LEE '64 (father & son)
SPENCE	WILLIAM '55, JOHN '75 (brothers)
SPERRY	STEPHEN '80, ANN '83 (brother & sister)
STOCKWELL	Edward '51, Frank, Jr. '52, DAVID '55 (brothers)
STOCKWELL	WILLARD '51, BRUCE '72 (father & son)
SWENSON	Guy '70, Chris '72, JOHN '75 (brothers)
TYLER	Michael '57, Sloan '82, PAGE '83 (father and daughters)
WALKER	THOMAS '29, MALCOLM '30 (brothers) THOMAS '66 (son)

Alumni / Reunion Weekend 1983

June 3, 4, 5

Stemming from the overwhelming past success of the expansion of Alumni/Reunion Day to an entire weekend, Governor Dummer Academy again invites all alumni, parents and friends to Alumni/Reunion Weekend June 3, 4 and 5. With less than two months to go, plans are underway to offer an exciting reunion and alumni program for everyone.

The weekend festivities begin Friday evening, with class reunion parties at various North Shore locations, arranged and coordinated by each reunion class. All alumni are encouraged to attend the GDA Music Department Concert, which will feature many of our talented students who continue to make the arts program grow. This will be followed by a hospitality reception for alumni and faculty.

Saturday's activities have been concentrated to offer an interesting program, beginning with the Third Annual Reunion 5-Mile Run and Pie Race, with all finishers under 40 minutes receiving a homemade pie.

Moved to a more convenient time, the annual meeting of the GDA Alumni Association will take place at 11:00 A.M. We hope to see many alumni at this important gathering, which features comments by Headmaster Ragle, the introduction of new Headmaster Peter W. Bragdon, and presentation of Alumni of the Year, Citizen of the Year and other awards.

The Reunion Barbecue at noon should be an enjoyable time to meet with classmates, faculty and students, during which time class pictures will be taken. The annual spring Alumni Games will follow in men's and women's lacrosse, baseball and a track meet, and should draw enthusiastic crowds to watch or play against the eager varsity teams.

Throughout the day there will be opportunities for alumni to refamiliarize themselves with the campus on student tours. In addition, the Parson's Schoolhouse Gallery will be open throughout the day to display the fine

examples of student artwork. Alumni are also encouraged to take advantage of the Ould Newbury Golf Club as well as the resurfaced GDA tennis courts.

The evening activities commence with the cocktail party for alumni, parents, faculty — including the Old Guard — and guests, followed by a special banquet for all alumni, parents and friends in honor of Headmaster Jack Ragle. Buster Navins will be the Master of Ceremonies. Chuck Stevenson and The State Street Ramblers Jazz Band will add the final touch to a super evening of dancing, listening and reuniting. As we expect a large response, alumni and parents are encouraged to make their reservations early!

On Sunday, there will be a special chapel service in the Moseley Chapel, followed by a brunch for alumni and their families, and an alumni/faculty softball game. Light refreshments on the field will follow before we bid farewell to Alumni/Reunion Weekend 1983.

Reunion Chairmen:

1933	Harry Churchill
1938	Harold Audet
1943	Crosby Hitchcock
1948	Pete Houston
1953	Bill Plumer
1958	Harvey Hayden
1963	Don Connelly
1968	Carl Spang
1973	Debbie McClement
1978	Jody Baum, Peter Feith, Brad Clark
